your
Winter PASTURES

White Dutch CLOVER

734 Louisiana-grown White Dutch Clover is the only plant that furnishes abundant grazing throughout the year under severe Southern conditions. The hottest dry summers do not stop its steady and sure growth. It has no equal for winter and early spring grazing. It is relished by all livestock. It is adapted in the South to practically every region and type of soil. It is a perennial. White Dutch Clover does well with Bermuda and Dallis Grass, as well as with Kentucky Blue Grass and Red Top in the upper South.

Sow during the fall and early spring at the rate of 10 lbs. per acre when planted alone. On established pastures, from 4 to 6 lbs. of seed per acre will give a good stand. Seed should be inoculated with NITRAGIN. $\frac{1}{4}$ lb. 30c; lb. 95c; 5 lbs. \$4.25. Not prepaid: 10 lbs. \$7.25; 100 lbs. \$68.00.

REUTER SEED CO.

NEW ORLEANS, LA.

America's Greatest Seed House Serving the South Exclusively

AMERICAN RYE GRASS

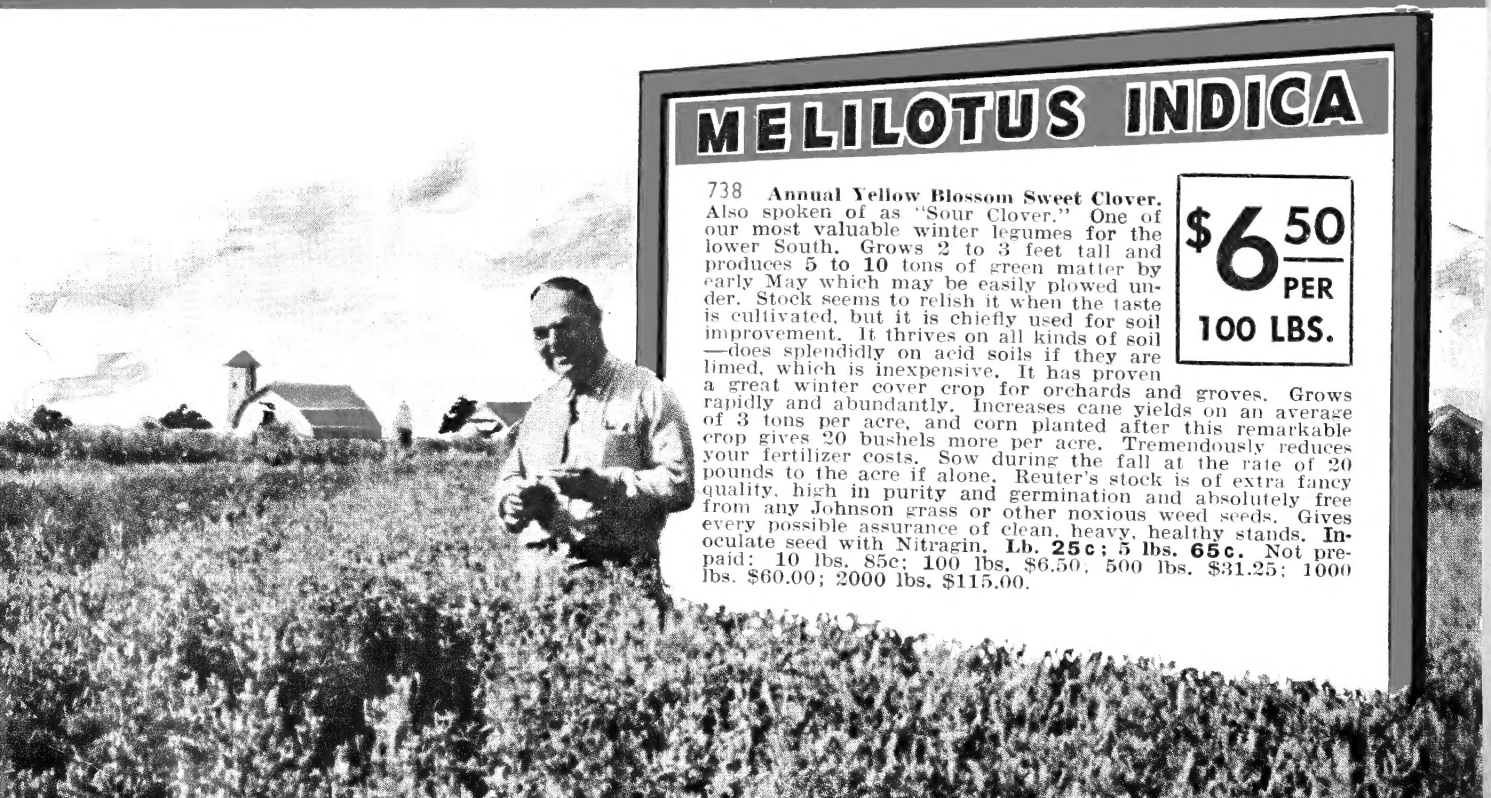

840-A You should sow liberally of this famous quick hay and winter pasture grass. The seed cost is so reasonable. A bag (100 lbs.) will easily plant three acres. American Rye Grass is deep green in color and grows 2 to 3 feet tall. Provides continuous grazing from mid-winter until June. Furnishes rich and palatable feed and plenty of it. Sheep, cattle, hogs, horses and poultry relish it. It supplies proteins, minerals and vitamins so badly needed by growing stock. Stands a lot of pasturing and even when grazed to the ground makes rapid renewed growth as soon as given an opportunity. Little soil preparation is necessary. No plowing and covering is essential, as with oats and the like. Simply sow

the seed and rake in. On compact soils loosen the ground with a rake or harrow, then sow the seed broadcast and lightly harrow in if convenient. In pasture mixtures it does well with Crimson Clover, Lespedeza, or other grasses and clovers. Best planting months are Sept., Oct. and Nov. Makes a better growth than most grasses on lands of low fertility.

Prices: Not prepaid: 10 lbs. \$1.40; 100 lbs. \$12.00; 500 lbs. \$58.75; 1,000 lbs. \$115.00.

MELILOTUS INDICA

738 **Annual Yellow Blossom Sweet Clover.** Also spoken of as "Sour Clover." One of our most valuable winter legumes for the lower South. Grows 2 to 3 feet tall and produces 5 to 10 tons of green matter by early May which may be easily plowed under. Stock seems to relish it when the taste is cultivated, but it is chiefly used for soil improvement. It thrives on all kinds of soil—does splendidly on acid soils if they are limed, which is inexpensive. It has proven a great winter cover crop for orchards and groves. Grows rapidly and abundantly. Increases cane yields on an average of 3 tons per acre, and corn planted after this remarkable crop gives 20 bushels more per acre. Tremendously reduces your fertilizer costs. Sow during the fall at the rate of 20 pounds to the acre if alone. Reuter's stock is of extra fancy quality, high in purity and germination and absolutely free from any Johnson grass or other noxious weed seeds. Gives every possible assurance of clean, heavy, healthy stands. Inoculate seed with Nitragin. **Lb. 25c; 5 lbs. 65c.** Not prepaid: 10 lbs. 85c; 100 lbs. \$6.50; 500 lbs. \$31.25; 1000 lbs. \$60.00; 2000 lbs. \$115.00.

When ordering Farm Seeds in quantities not listed, we will allow the 10-lb. rate on quantities of 6 to 10 lbs. inclusive. All quantities of 25 lbs. or more take the 100-lb. rate. 1/2-bushel quantities will be supplied at the bushel rates. All prices are F.O.B. New Orleans, and do not include cost of delivery by mail, express, truck or freight.

INOCULATION PAYS

The Cost Is Small

No legume can flourish without proper inoculation. Often the lack of proper inoculation means a failure. This applies to all clovers, alfalfa, Austrian winter Peas and vetches. Also garden beans and peas. You may have inoculating bacteria in your soil. If a certain legume has been growing successfully on your land in the past few years, then it is reasonable to assume that you do not have to inoculate the seed of that crop when you reseed. If such a crop has not been grown recently on your land, there is no way of telling if it is inoculated. Don't take any chances. When ordering, ALWAYS state name of seed.

POSTPAID PRICES

Alfalfa and All Clovers
1 bus. (60 lbs.) size 50c; 2 1/2 bus. (150 lbs.) size \$1.00.
Peas, Vetches, Austrian Winter Peas, Lupines
100 lb. size 50c; 1200 lbs. size (12 100-lb. sizes) \$5.70.
Beans—Snap, Wax and Kidney
Garden size (Enough for 6 lbs. seed) 10c; 1 bus. (60 lbs.) size 35c.
Beans—Butter and Lima
1 bus. (60 lbs.) size 35c.

CYCLONE SEEDER

The most satisfactory low priced grass and grain broadcast seeder on the market. Quickly adjustable to different kinds of seeds. Easy to operate. Sows many acres per hour. Does the work quickly and saves labor. Its well-known double feed insures a uniform flow of seed. Distributing wheel scatters seed evenly—helps get better stands. Capacity, one-half bushel. Also used for applying Calcium Arsenate on the cotton plant to kill the boll weevil. Full directions for operating are attached to each machine. Price: \$2.50, postpaid.

Root Duster

THE ROOT HAND GUN DUSTER C-3

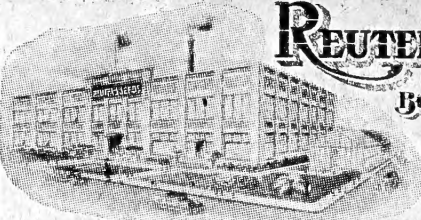

Recognized by agricultural authorities as the highest quality, most efficient crank style duster on the market.

It is extremely easy to operate and requires no lubrication during its life. It will handle all dusts efficiently. Complete with extension for one and two row distribution. \$19.80, postpaid.

REUTERSEED

July 15, 1944.

Dear Friend:

During the year 1943 millions of American men and women answered the call for Home Gardens and did a remarkable job in producing a large share of the Nation's requirements in food. President Roosevelt, in a recent message to Congress, stated: "Much credit is due to the patriotic men and women who spent so much time and energy in planting the twenty million Victory Gardens in the United States and helped to meet the food requirements. It is estimated that about eight million tons of food were produced in 1943 in these Victory Gardens."

The next few years will see a far greater need for Home Gardens than ever before. Much food will have to be shipped to the liberated countries to feed their starving people. With the severe shortage in farm labor and overtaxed transportation facilities a critical shortage in many vegetables is to be foreseen.

Protect the health of YOUR family! Keep your vegetable garden productive. Be assured of a never failing supply of vitamin rich vegetables. Food at your kitchen door takes a load off man power and transportation.

Reuter is amply prepared to fill your orders with high-grade, pre-tested quality vegetable seeds at reasonable prices. However, the labor situation is becoming more and more critical; therefore, we urge you to place your order early and be assured of having the seed on hand when needed. Your kind co-operation will be greatly appreciated.

Sincerely yours,

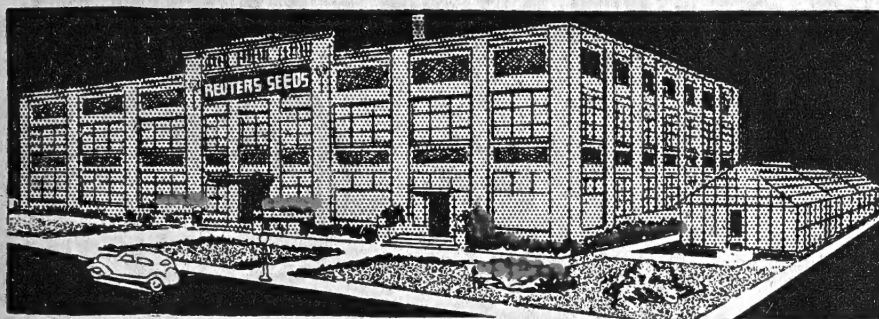

Reuter Seed Company, Inc.

Satisfaction GUARANTEED OR YOUR MONEY REFUNDED

For 64 years Reuter has steadfastly adhered to the highest standards of quality. No effort or expense is spared to furnish our many customers with the best. Even with the highest quality seeds, bulbs and plants, success in gardening or farming depends largely upon cultivation, soil and weather conditions. Therefore, in common with the universal custom of the Seed Trade, Reuter Seed Company, Inc., will not be in any way responsible for the crop. Our seeds, plants and bulbs are guaranteed to be exactly as represented, and in condition to grow satisfactorily if planted and cared for properly. Any single item not found to be entirely satisfactory will be replaced absolutely free of charge, or we will refund you every cent you paid, including transportation charges both ways.

Reuter operates its own modern seed laboratory in charge of a graduate Seed Analyst, formerly with the United States Government. Every lot of seed is painstakingly analyzed for purity and carefully tested for germination. Tests are also conducted in our large greenhouses, and finally checked under our personal supervision at our experimental farm. All seed must measure up to Reuter's rigid specifications, otherwise it is not shipped to you.

LARGEST COMPLETE STOCKS

Reuter places at your disposal the largest, finest and most complete stock of vegetable, farm and flower seeds in the entire South. Our warehouses are filled to the roofs with thousands of bags of the choicest seeds, produced especially for us under contract with the foremost seed breeders and growers in all parts of the world. We attempt, as far as humanly possible, to carry in stock at all times a sufficient quantity of every single variety offered in this catalog, so that all of your orders will be filled promptly and completely. Reuter urges you to make this immense, carefully selected stock the one dependable source of your entire seed supply.

AIR-CONDITIONED STORAGE

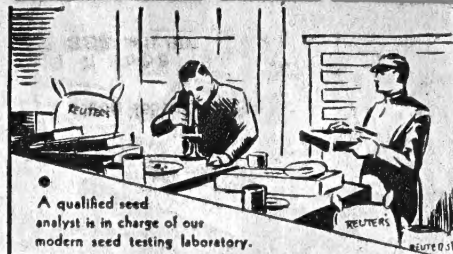

We have installed in our own building the most modern, air-cooled, vermin-proof seed storage rooms. You will always find our seeds are of the highest germination, not only because every pound is fresh, new-crop stock, and not only because they are always painstakingly tested by a graduate Seed Analyst, but **germination and vitality are maintained** through these controlled temperatures and humidities in our seed storage rooms, which were designed for the sole purpose of storing our seeds under the most ideal conditions. Reuter has expended thousands of dollars in the latest equipment for this control of temperature and humidity to doubly assure you of receiving only seeds of strongest vitality and highest germination.

Place Your Order Early!

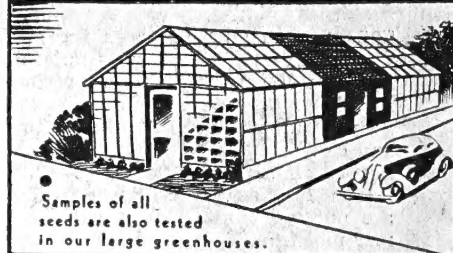

We desire to call to the attention of our many friends and customers that our industry, like many others, is confronted with the ever-increasing shortage of manpower. This handicap, combined with overtaxed transportation facilities, may result in a delay in the arrival of your seed orders. We, therefore, urge you as far as possible to anticipate your requirements. Send us your orders early allowing a reasonable time for filling and for any delay which may occur in transit. All possible advance preparations have been made for the Fall season, and we want to assure you that we will do everything within our power to fill your orders completely and quickly. Your co-operation will be very much appreciated.

The Office of Price Administration has placed ceilings on a number of vegetable and field seeds. Prices quoted in this catalog on these items are in accordance with regulations released by this office.

• Pure Bred Seeds

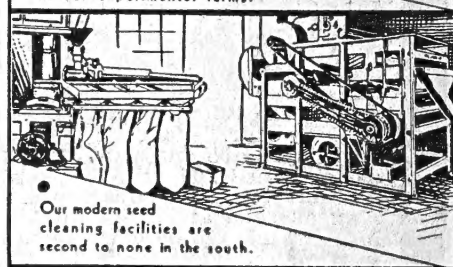

• A qualified seed analyst is in charge of our modern seed testing laboratory.

• Samples of all seeds are also tested in our large greenhouses.

• The high-quality of our seeds is watched at our experimental farms.

• Our modern seed cleaning facilities are second to none in the south.

HOW TO ORDER

You will find a convenient order blank in the front of Catalog. Write your name and address plainly. Be sure to state how you wish your order shipped.

Remit in any manner that suits your convenience. Send your personal check if it's easier. We will bear the cost of Post Office and Express Money Order, or cost of registering letters from places that are not money-order offices. Deduct from the amount of the order.

On orders where the amount is less than 50c, we will accept U. S. postage stamps in good condition (one, two or three-cent stamps preferred). Letters containing money should always be registered. Money in ordinary letters is unsafe.

No plants shipped C.O.D.

WE PAY POSTAGE

We pay the postage on everything offered in this Catalog up to and including 5 pounds on each variety, except where otherwise noted. This means that everything the home gardener requires is delivered to his door free of charge. Do not include postage on post-paid items.

ALFALFA

HAIRY

PERUVIAN

702 Superior to all types for production where the temperature does not fall below 10 degrees Fahrenheit. Highly recommended for the entire lower South. Yields 10 to 20 per cent more growth during the winter and can be cut through the entire year for hay. It is a tall, vigorous grower, and will live as long as any type where the winters are not too cold and where there is summer moisture. Yields one more cutting and from one to three tons more hay in a season than other Alfalfa. On poor or sandy land, Hairy Peruvian will give you cuttings

of hay where other kinds will not. Sow during early fall and spring in thoroughly prepared, well-drained soil, broadcast or in drills, at the rate of 15 to 20 pounds per acre. Alfalfa will produce more good feed per acre, add more vegetable matter and nitrogen to the soil than any other crop. Seed should be inoculated. Reuter's seed is beautiful, extra-fancy quality.

Lb. 65c; 5 lbs. \$3.00. Not prepaid: 10 lbs. \$4.70; 100 lbs., \$45.00. Write for quantity prices when ready to buy.

\$45.00
PER
100 LBS

PEERLESS brand

701 The highest grade Arizona-grown Alfalfa seed. It is perfectly adapted to almost the entire upper South. We have sold carloads year after year. Reuter's customers are enthusiastic about it. They tell us that it will yield more than Utah and Kansas seed and they like it better. Peerless Brand will have the hardiness and yielding quality you demand in Alfalfa. Where it is planted on good, well-drained soil, with some lime, and cultivated with a spring tooth harrow, it will last almost indefinitely and cold does not kill it after it becomes well established.

Peerless Brand is strong, vigorous seed, full of vitality, strength and life. This is genuine Chilean or Common Alfalfa. None better. Seed should be inoculated. **Lb. 60c; 5 lbs. \$2.85.** Not prepaid: 10 lbs. \$4.55; 100 lbs. \$43.65. Write for current quantity prices when ready to buy.

\$43.65
PER
100 lbs

Black Medic

742 A wonderful Clover of the alfalfa family, thriving on all soils except loose sands and water-logged types. It spreads faster than any other Clover. Reseeds itself with the closest possible grazing. Yields a very nutritious pasture. Sow from early September until March, the earlier the better. It can also be used to excellent advantage for cover crop purposes. Matures seed in May. It works well in mixtures with other clovers and grasses for grazing. Sow 10-15 pounds an acre. Inoculate seed. Crop extremely short. **Lb. 65c; 5 lbs. \$3.00.** Not prepaid: 10 lbs. \$4.50.

Hopclover

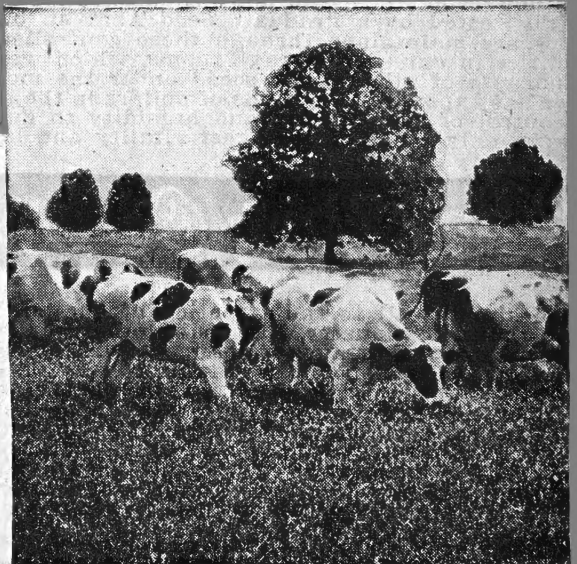

744 Grows well over the greater part of all the Southern States. It's very aggressive and hardy. Should be a part of all pasture Clover mixtures. It is one of the earliest to give grazing. Specially adapted to sandy soil and waste lands. When planted on rich soil, it will produce larger plants with more foliage. If used alone, sow 6 pounds per acre. Plant in early fall and spring. Makes slow growth through the winter, but comes on rapidly in the early spring. By the last of March, it will make excellent grazing. Seed should be inoculated. Seed offered slightly mixed with White Dutch Clover. **Lb. 75c; 5 lbs. \$3.50.** Not prepaid: 10 lbs. \$5.50; 100 lbs. \$53.00.

Persian Clover

743 A valuable new clover that should be planted on every pasture in the South. Furnishes splendid grazing from December until June. Will carry 4 to 6 head of cattle per acre throughout the entire growing season. Yields 2 to 3 tons of rich, palatable hay per acre, which is easily cut and cures very quickly. Reseeds itself even when closely grazed and spreads rapidly. Makes an upright growth, 2 to 3 feet high, bears small pink flowers and seeds heavily. Will stand heavier, wetter lands than most clovers. As a soil builder, many of our customers report that they have doubled their yields of corn and cotton after two years of this clover.

Persian Clover grows well in mixtures, and is an ideal crop to grow in connection with White Dutch, Bermuda, Dallis Grass, also Lespedeza for both hay and pasture. It has a deeper root system than White Dutch and requires less moisture for its success. Grows equally well on clay or loamy soils. The lime requirements are very low. Thrives on upland soils. Grows rapidly—fully two weeks ahead of White Dutch. Sow 6 to 8 pounds of seed per acre from September to November in the fall. Cover very lightly. Seed should be inoculated with NITRAGIN.

Prices: **Lb. 65c; 5 lbs. \$2.75.** Not prepaid: 10 lbs. \$4.00; 100 lbs. \$38.00.

White Blossom SWEET CLOVER

735 (Melilotus alba). A biennial Sweet Clover. Grows two years from one seeding. Makes a large growth the first year, but a much heavier growth the second due to its extensive root system. It's a great soil builder. Relished by all kinds of livestock. No other pasture crop measures up to the summer and fall grazing furnished by this plant. Should be in all pasture mixtures. Here in the South two cuttings of hay are had the first year, and one cutting and a seed crop the second or grazing entirely, if preferable. Plant during September and October, at the rate of 15 to 20 pounds per acre, if sown alone. Our seed is carefully cleaned, scarified and scientifically graded and is a real value. Seed should be inoculated for best results. **Lb. 45c; 5 lbs. \$1.75.** Not prepaid: 10 lbs. \$2.10; 100 lbs. \$19.00.

PASTURE Mixture

743A Marvelous Mixture. A combination of three of our most famous pasture clovers for the South—Persian, White Dutch and yellow Hop. A seeding that will last for years. Produces fine quality and variety of most excellent feed and gives longer pasture season. It only requires 6 pounds of seed to the acre. **Lb. 80c; 5 lbs. \$3.50.** Not prepaid: 10 lbs. \$5.50; 100 lbs. \$52.00.

CRIMSON CLOVER

739 A great annual winter soil-building crop and a quick grazing crop. Yields 8 to 10 tons of green feed per acre; 1½ to 2 tons of hay. Can be planted in corn and cotton fields from August to November, or combined with oats or other fall-sown crops for spring pastures. Makes excellent quality hay if cut before maturity. Ready to graze by December. However, it is more often pastured in winter and plowed under as a green manure crop in the spring. Grows on poor soil if moisture is plentiful. Sow 15 to 20 lbs. per acre. Seed should be inoculated with NITRAGIN. **Prices: Lb. 45c; 5 lbs. \$1.75.** Not prepaid: 10 lbs. \$2.10; 100 lbs. \$19.00.

RED CLOVER

737 Better known in the Northern part of the Cotton Belt, but thrives very well in the lower regions. Recommended chiefly as a winter and spring pasture Clover and to 2 cuttings. In the states North of the Cotton Belt, Red Clover is sometimes a perennial, the plants living from 3 to 9 years, but as a rule it does not survive Southern summers. If fall sown it gets large enough to furnish fall grazing which is unusual for winter and spring clovers. Most soils, except strongly acid types, suit this great soil-improving clover. Commence sowing during the early fall and spring at the rate of 12 to 15 lbs. per acre. When planted in pasture mixtures with other crops, 5 lbs. per acre is sufficient. Inoculate seed with NITRAGIN. **Prices: Lb. 65c; 5 lbs. \$2.75.** Not prepaid: 10 lbs. \$4.70; 100 lbs. \$44.70.

GIANT BUR CLOVER

\$16.50 PER 100 LBS.

745 The South's greatest winter cover crop and soil-building legume. A new type that attains a height of 5 feet and is 3 weeks earlier than common bur clover. Hardier than vetches and winter peas. Withstands our lowest temperatures. Ready to plow under during early March which permits the planting of corn and cotton as early as anyone could wish and assures 10 to 15 tons of green clover per acre to supply humus and nitrogen. Yields 200 bushels or more of seed per acre on good land. Provides excellent winter pasture for all farm animals and poultry. Makes good on land too wet for vetches and winter peas. A field once planted to it, with proper care, need never be planted again. Plant from July until November at the rate of 5 to 10 bushels per acre, preferably in cotton middles on reasonably well drained, sandy or loamy soils. Cultivate one time the middles to top and side of row. On established pastures plant 2 to 3 bushels per acre, drag and disc in, or let it alone; the tramping of stock will work the seed down into the sod. No inoculation is needed. Valuable planting leaflet free! Reuter offers recleaned seed in the bur and with only enough dirt to insure proper inoculation. Seed very scarce. **Prices: Not prepaid: Bus. (10 lbs.) \$1.85; 5 bus. (50 lbs.) \$8.75.**

Bur Clover

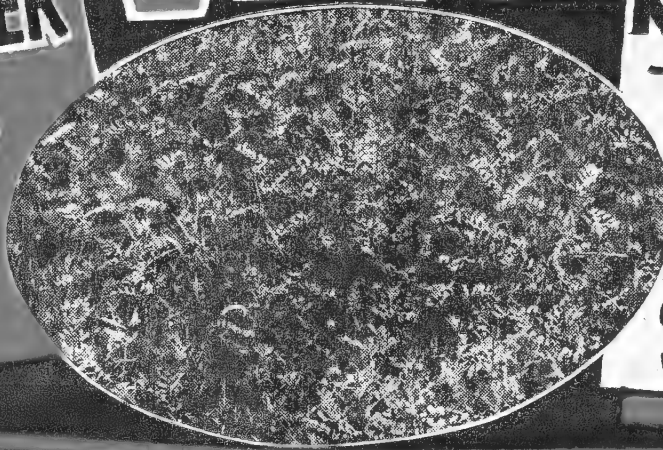

740 California Hulled (Medicago hispida). A builder of lands and animals. From start to finish it adds nitrogen to the soil for the succeeding crops, adding vegetable matter, holding plant-food from washing away in winter rains and building up your livestock every day it is grazed. California Hulled Bur Clover is superior to the common spotted variety. It's easier to obtain a stand, grows faster, often ready to graze by December 15, and withstands dry weather better. Stock relish it better and it reseeds under the closest grazing. Adapted to nearly all soils—clay and loamy soils in particular. Include this valuable clover in your permanent pasture mixture this fall. Simply broadcast the seed over the grazing area without further attention at the rate of 20 to 25 pounds to the acre. Do not confuse this type with Early Giant Bur Clover offered above. Very scarce. Seed should be inoculated. **Lb. 80c; 5 lbs. \$3.75.** Not prepaid: 10 lbs. \$6.25.

ALSIKE CLOVER

736 This is the best pasture Clover for low, wet, or poor lands. On the borders of marshes, seepy hillsides, and places too wet for other clovers this plant makes its best growth. It is of no value on dry soils. Sow with Red-Top grass on the damp and low places in the pasture. Commence sowing during September, at the rate of 6 to 8 pounds per acre. Seed should be inoculated with NITRAGIN to insure success. **Lb. 65c; 5 lbs. \$2.75.** Not prepaid: 10 lbs. \$4.40; 100 lbs. \$41.70.

REBUILD YOUR
SOILS FOR BETTER
SPRING CROPS

741 Ranks at the top as a winter legume—the champion soil-improving crop. Turned under at the proper time it will double and triple per acre yield of the following crop. Cut or grazed, combined with small grains, such as oats and rye, or seeded alone, it furnishes splendid winter and spring pasture. Makes wonderful hay, very rich in protein; all stock relish it. Stands the severe winters in all parts of the South without injury. Withstands drought. Grows on practically all types of soils. Does surprisingly well on poor, thin land. Prevents soil erosion.

Sow during August through November at the rate of 20 pounds per acre in drills or 30 pounds broadcast. The three-row drill is well adapted for planting between cotton and corn rows. It insures uniform depth (2 inches) of covering, and also an even distribution of seed, and makes it possible to sow vetch before all the cotton is picked. Apply superphosphate or its equivalent of basic slag at the rate of 300 to 400 lbs. per acre on all the thinner, impoverished upland soils. No commercial fertilizers are needed for this crop on our alluvial soils, nor on the more fertile upland soils, especially where the legume crop follows a crop of cotton or corn which received a liberal application of superphosphate and some potash.

When Vetch produces 15 to 20 lbs. of green matter per 100 square feet, the crop may be turned under. This is usually during early April. It will decay sufficiently in about two weeks to plant your corn or cotton, or some other summer crop.

Prices: Not prepaid; 10 lbs. \$1.75; 100 lbs. \$15.50. Write for prices on larger quantities.

MIXED VETCHES AND PEAS

Rapidly growing in favor. These mixtures are usually quoted at attractive prices. If interested, Reuter will gladly quote low prices and furnish analysis, because all mixtures are odd lots which have been blended.

HUNGARIAN VETCH *for*

Low Cost
Seeding

\$7.25
PER
100
LBS.

YOU CAN
SAVE MONEY !

729 The cost per acre of planting Hungarian Vetch is much less than Hairy Vetch. It matures fully two weeks earlier than Hairy, which permits getting the succeeding crop in sooner. It also makes more early growth than Hairy. In the famous "Delta" of Mississippi more than half of the acreage sown to winter cover crops is Hungarian Vetch. Tests conducted at the Alabama Experiment Station, Auburn, proved conclusively that Hungarian has proven dependable and made the best general average of the three popular legumes. The Louisiana Experiment Station reports: "We consider it equally as valuable and desirable as either Hairy Vetch or Austrian Winter Peas and would recommend it over either of them in cases where a saving on the cost of the seed can be secured. It is probably more resistant to acid soil conditions than any of the others and is also very aphid resistant." Recommended for the alluvial and rich lands, and not for the poorer grade sandy soils. Plant until December, but the earlier the better, at the rate of 25 to 30 lbs. per acre, or 20 lbs. when planting with small grains. Inoculate seed with NITRAGIN.

Prices: Not prepaid; 10 lbs. 90c; 100 lbs. \$7.25. Reuter will gladly quote their current delivered prices on larger quantities.

COMMON VETCH

725 The most popular type in Louisiana. The State Experiment Station claims that Common Vetch can safely and satisfactorily be grown wherever the Hungarian variety does well and in most areas where Hairy is generally grown. Common Vetch prefers sandy loams that are well-drained. However, it will produce good crops on most other soils where water does not stand. It is not as resistant to cold as Hairy, and for this reason plantings are limited to the lower South. When planted alone, it requires 30 to 40 lbs. per acre. Half the quantity is sufficient when sown with small grains. Seed should be inoculated with Nitratin. Not prepaid; 10 lbs. \$1.10. Write Reuter for current delivered prices on larger quantities.

100 lbs.

**HIGHEST
GERMINATING
SEEDS**

GRASSES

FOR LAWNS AND FARMS

American RYE Grass

840 Winter-Green.

The finest winter-lawn grass for all the South. A fast-growing annual with broad, flat blades of a delightful green color. When scratched into the Bermuda sod it will produce within two weeks a beautiful and luxuriant solid carpet of green. It lasts until the Bermuda comes up again in the summer. By itself, it makes a magnificent green lawn, in sun or shade, all fall, winter and spring. Sow 10 lbs. per 1,000 sq. ft. (50 x 20) commencing in September through December. When sowing on a Bermuda or Carpet lawn, the grass should be mowed as closely as possible before sowing the seed, and for a thick velvety lawn, a light covering of rich soil or peat moss will pay. On new lawn a rake can be used in mixing the seed with the surface soil.

Reuter offers extra-fancy, heavy plump seed, full of vitality and life. Recleaned and refined to produce a uniformity of growth and a quality of turf impossible of attainment with ordinary Rye Grass Seed. Over 50 years of experience enables Reuter to be thoroughly familiar with the best sources of production and processes of cleaning and storage. This purchasing is not done on faith, but in connection with scientific tests which determine definitely the purity and viability of the seed. These tests are made in our own seed laboratory, under the direction of an expert analyst. **Lb. 25c; 5 lbs. \$1.00.** Not prepaid: 10 lbs. \$1.50; 100 lbs. \$13.00. Write for special prices on larger quantities.

"GULF STATE" Lawn Mixture

838 This perfected mixture can be obtained only from Reuter. It is the result of years of experimental work with grasses adapted to Southern soils and climatic conditions. With proper care, it will quickly produce a beautiful, velvety green, all-year-round lawn. 5 pounds will sow 1,000 square feet (50x20). **Lb. 70c; 5 lbs. \$3.25.** Not prepaid: 10 lbs. \$5.00; 100 lbs. \$48.00.

RED TOP

833 Good for lawns and pastures. Stands wet weather and overflowing for even two to three weeks. Will hold well during the summer if cut often. Sow from October until April at the rate of 5 pounds per 1,000 square feet for lawns and 10 to 15 pounds per acre for pastures. Cover seed very lightly. **Lb. 40c; 5 lbs. \$1.75.** Not prepaid: 10 lbs. \$2.20; 100 lbs. \$20.00.

RESCUE

842 (Bromus Schraderi). Makes fine early spring pasture. Grows in tufts or bunches, often a foot in diameter and is very leafy at the base. The stems are nearly erect. 2 to 4 feet high. Furnishes nutritious grazing until May. Does well mixed with Rye Grass and Bur Clover at the rate of 30 to 40 lbs. per acre. **Lb. 55c; 5 lbs. \$2.25.** Not prepaid: 10 lbs. \$3.20; 100 lbs. \$30.00.

Fancy BERMUDA Grass

829 The most dependable and permanent grass for lawns, golf-courses and athletic fields. Makes a tough even, clumpless turf that recovers quickly after cutting. Lasts for years; stands a long, hot, dry summer without injury. It is by far the most important pasture grass in the South. Succeeds on nearly all types of soil, even if poor and sandy. Loamy bottom lands well drained are best. As a grazing and fattening grass has few equals. It is palatable and relished by all live-stock. Close grazing improves its quality. Grows well with Lespedeza and Dallis Grass, and follows winter growing clovers, such as White Dutch, Bur, Medic, Hop and Persian exceptionally well. Germinates in 20 to 30 days with proper soil moisture. Sow broadcast on well-prepared land from March until October in lower South, May to September in upper South and cover very lightly. Sow 12 to 15 pounds to the acre for pasture; 5 lbs. to 1,000 square feet for lawns.

The Bermuda Grass Seed we offer is the fine leaf cultivated turf-producing strain, testing 95% pure or better. Reuter always offers the best. **Lb. \$1.00; 5 lbs. \$4.75.** Not prepaid: 10 lbs. \$8.50; 100 lbs. \$80.00.

Hulled BERMUDA Grass

826 Reuter offers his Fancy Bermuda Grass with the hull removed, a new process which gives much quicker germination. Under favorable moisture and soil conditions, Reuter's Hulled Bermuda Grass will germinate in 7 to 10 days, whereas unhulled seed requires 20 to 30 days. It is more economical; half the quantity of seed required per 100 square feet of planting. With soil and moisture right Hulled Bermuda Seed germinates as quickly as Rye Grass. Seed can be sown from March to November in lower South. May until September in upper South. **Lb. \$1.50; 5 lbs. \$7.00.** Not prepaid: 10 lbs. \$12.50; 25 lbs. \$30.00.

RHODES GRASS

844 A valuable pasture and hay grass for South Texas. Yields 6 to 8 cuttings of rich hay, each averaging 1 to 1½ tons per acre. Does not stand severe freezing. Thrives best on soils that are fairly moist. It is very leafy, slender and erect, producing stems from 2 to 5 feet in height. The hay is easily cured. Broadcast seed anytime during the early fall on well prepared land at the rate of 12 lbs. per acre. Cultural leaflet free! Crop very scarce. Write for prices.

BLUE Kentucky GRASS

836 Excellent lawn grass; ideal for golf fairways and putting-grounds; the sweetest and best pasture grass. Plants slightly creeping with deep green narrow leaf blades. It is only adapted to parts of the upper South and Northward. 5 pounds will sow 1,000 square feet for lawns; 40 pounds per acre for pasture. Plant in the fall and early spring. **Lb. 55c; 5 lbs. \$2.35.** Not prepaid: 10 lbs. \$3.40; 100 lbs. \$32.00.

South's Two Greatest Pasture Grasses

CARPET GRASS

830 Rapidly proving itself the most important and valuable permanent grazing grass for the South. A perennial spreading by creeping stems which root at every joint, thus forming a close, compact turf. Compared with Bermuda Grass, Carpet Grass is its equal in feeding value; it may be grazed considerably later in the fall and earlier in the spring; it does better on poor, sandy soils and furnishes more grazing; it is better adapted to wet sour soils and thrives better under hot, humid conditions. Like Bermuda, it is palatable and relished by all livestock.

It is strictly a pasture grass and stands close grazing and heavy trampling; in fact, it grows best and spreads more rapidly when closely grazed and trampling seems to improve it. Can be sown over your present pasture, creek bottoms, or cut-over woodland without plowing or discing. Produces practically year-round succulent green pasture, fully equal to Kentucky Blue Grass. Easily eradicated by plowing. It does splendidly sown with Lespedeza, Dallis Grass, Black Medic, White Clover and Bur Clover. Carpet Grass can be grown wherever the temperature does not fall below 10 degrees. Fall sowings are conducted during September, October and November, and spring from February until July. It is a drought-resisting grass and furnishes fine grazing during long dry spells, when all other grasses are dead. Carpet Grass is easy to start, if you plant first quality seed. Most of the seeds on the market are low grade. Reuter's stock is the finest available from the choicest meadows in the South, and every lot has been carefully analyzed for purity and germination in our own modern seed laboratory in charge of a graduate seed analyst. Sow at the rate of 10 to 15 lbs. per acre for pasture and 25 to 30 lbs. for lawns, public parks and golf courses. New crop seed will be ready in October. **Lb. 55c; 5 lbs. \$2.35.** Not prepaid: 10 lbs. \$3.70; 100 lbs. \$35.00.

DALLIS

Grass

834 (*Paspalum Dilatatum*.) One of the most valuable permanent pasture grasses in the South. Comes nearer growing year-round than any other grass. Cultivation readily kills it. Makes its fastest growth on heavy or moist bottomland, but gives satisfactory results on dry hill lands, and will even grow in burnt-over timber land. It stops washes and gullies. Withstands continued drought remarkably well. We know of no better grass to withstand flood conditions on lowlands. Light freezes do not injure this grass. Due to its tuft formation and compactness of growth, it will choke out Johnson Grass and undesirable weeds.

Combines well with Bermuda and Carpet Grasses, and once started in mixtures keeps a satisfactory balance with other crops. Lespedeza grows well with Dallis Grass mix-

tures, also White Dutch, Alsike, Hop, Rur, Black Medic and Persian Clover. It will stand more drought than Bermuda. Plantings are made the year-round, but principally in late summer and early fall, and in the spring commencing in January. Broadcast 10 to 15 lbs. per acre if sown alone.

Reuter offers both Louisiana-grown and imported seed. The growth is identical, but the imported seeds are usually harvested under more ideal weather condition which often improves the quality. Louisiana-grown seeds are highly satisfactory and widely used.

Louisiana-Grown: Lb. 60c; 5 lbs. \$2.65. Not prepaid: 10 lbs. \$4.00; 100 lbs. \$38.00.

Imported Seed. Very scarce. **Lb. 85c; 5 lbs. \$3.75.** Not prepaid: 10 lbs. \$6.50.

SEED OATS

✓ *Selected-Tested*
HEAVY YIELDING

RED RUST-PROOF

777 Louisiana-Grown.

An exceptionally fine strain of rust-proof Oats that is hardy, heavy-yielding, producing a medium tall stiff straw and an enormous tonnage of grain and hay. For an all-round general purpose Oat you can find nothing that is better and few strains compare with it. It is a very vigorous grower, robust, productive and does well on all types of soil. Sow during October and November at the rate of 2 to 3 bushels per acre. Cut for hay when the Oats are in the milk, or about half mature. Oats are easier to grow than corn, cost less to make and are a better feed in summer for your stock, being less heating. Stools out strongly and makes the best kind of grazing for cattle, hogs, horses and mules during the winter and early spring.

Our seed stock is strictly Louisiana-grown and thoroughly re-cleaned with the most modern machinery to remove all light grains and weed seeds. Not prepaid: Bus. (32 lbs.) \$1.65; 5 bus. or over, \$1.50 per bus.; 50 bus. or over, \$1.45 per bus. Write for our lowest market prices when ready to buy. It will certainly pay you.

RED MAY WHEAT

773 The most satisfactory wheat to grow in the South. It is sometimes called Blue Stem or Purple Straw. It's a fine **beardless** type, rather early, productive and stands up well. Good for grain production and if cut when "in dough" makes an excellent hay crop. Splendid for pastures. October and November are the best planting months. It's better to use 1½ to 1¾ bushels per acre. Plant in drills, using the "open furrow" method, the same as for oats. Not prepaid: Pk. (15 lbs.) \$1.10; bus. (60 lbs.) \$3.50; 5 bus. or over, \$3.40 per bus.

BEARDED BARLEY

774 Barley is as fine a grain as you can feed. It is rich in bone and muscle building elements. Poultry raisers prefer it for winter green feed and grazing. Fur-nishes excellent grazing through the fall, winter and spring; also makes a fine quality hay. If not grazed too long, it may be harvested for grain, making it a two purpose crop. Sown at last cotton or corn working, the only expense is the cost of the seed. Very easily grown. The Barley we are going to ship on your order is thoroughly re-cleaned, carefully tested, Southern-grown stock. Broadcast at the rate of 2 bushels per acre from September 1 until the middle of November. Not prepaid: Pk. (12 lbs.) \$1.00; bus. (48 lbs.) \$3.35; 5 bus. or over, \$3.25 per bus. Write for our best market prices when ready to buy.

CAMELLIA

778 Developed by the Louisiana Agricultural Experiment Station and released in 1942. This new strain of Oats is the result of years of selection and testing. It has shown almost complete resistant to leaf rust—a particularly important factor in South Louisiana where leaf rust epidemics in many parishes have made oats a hazardous crop. It is not resistant to stem rust but this disease is less prevailing and also less serious since it does not become severe until the plants are practically mature. The Camellia Oat produces strong, vigorous plants reaching up to 4 feet in height, and have large plump kernels with an insignificant awn. The large dark green leaves furnish a dependable winter grazing crop. It is a heavy yielder and returns of 65 bushels per acre are reported from South Louisiana. Not prepaid: Bus. (32 lbs.) \$2.75; 5 bus. or more \$2.60 per bus. Write for quantity prices when ready to buy.

CERTIFIED ALBER

770 A sensational new Oat introduction. It has proved its superiority in every respect to any type on the market—matures fully ten days earlier than Red Rust-Proof varieties. Stools equally as well, withstands more adverse weather just before harvest time. Yields 25 to 40 bushels more grain per acre. Definitely more rust-resistant than any of the so-called "rust-proof" strains. Adapted to all parts of the South. In one parish in Louisiana where Oat production has been a total failure, the famous Alber Oats yielded an average of 60 bushels to the acre for the past three years. For six years this wonderful Oat has been tested by the Experiment Station at Baton Rouge, and for six consecutive years it has been the highest yielding variety and a grand feeding Oat that should stimulate feed production and provide invaluable winter grazing for the entire lower South. Increased production of certified seed in Louisiana enables Reuter to offer you seed stock from heavy yielding fields that have been carefully inspected and the seed re-cleaned and graded to measure up to the exacting and rigid requirements of our State Seed Certification Association. Not prepaid: Bus. (32 lbs.) \$1.85; 5 bus. or over, \$1.70 per bus.; 50 bus. or over, \$1.65 per bus. Write for quantity prices when ready to buy.

DWARF ESSEX RAPE

876 Every hog-grower can produce pork at a lower cost if he has a good Rape-pasture. Relished by all kinds of stock, but principally planted for hogs and poultry. Make fine "greens" for table as a substitute for turnip or spinach "greens," when young.

It grows 15 to 30 inches high and makes a splendid green and forage crop in 6 to 8 weeks. Grows on any soil. Sow any time during the summer, fall, or winter, either in drills (4 pounds per acre) or broadcast (8 pounds per acre). Planted in small grain, will pasture 20 hogs for 3 months. It puts and keeps stock in fine condition. You should plant Rape for your hogs and poultry. ¼ lb. 10c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25. Not prepaid: 10 lbs. \$1.80; 100 lbs. \$16.00.

ABRUZZI RYE

776 Far ahead of any other Rye for the South because it gives a better yield, stands up well and produces good grazing. Our pure Southern-grown stock stools out quickly and heavily, covering the ground and protecting its roots in winter. It can be pastured a month to six weeks earlier than other types. Invaluable for the dairyman and stock farmer because it produces 50 per cent more pasturage. We offer only stock grown from Coker's Pedigreed Seed. Not prepaid: Pk. (14 lbs.) \$1.10; bus. (56 lbs.) \$3.50; 5 bus. or over \$3.40 per bus. Write for quantity prices when ready to buy.

Broccoli makes a Delicious Dish

ASPARAGUS

One of the most delicious of all vegetables. Easily grown in any deep, rich soil.

Culture. Sow thinly in drills 12 inches apart in the Fall. Thin to about an inch apart. Transplant roots to permanent bed which has been dressed liberally with stable manure and a good fertilizer. Make the rows 4 to 6 feet apart. A bed 15 by 20 feet requires 100 roots. One ounce of seed will sow 50 feet of drill; 2 to 3 pounds, an acre.

4 Mary Washington. Very productive rust-resistant variety. The shoots are of large size, excellent quality, and a rich deep green color tinted purple at tips. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

NITRAGIN "D"

An excellent inoculation for Snap Beans. 6 lb. size 10c; 1 bus. size 35c.

ITALIAN BROCCOLI →

Culture: Same as for Cabbage. Requires a cool season for its proper growth. One ounce will produce 1,500 plants; 4 to 6 ounces an acre.

73 Green Sprouting.

75 days. The stock Reuter offers is the imported, true Calabrese, very early, dark green, robust and large yielding strain that is in big demand by shippers, market gardeners, and also splendid for home gardens. The tall branching plant forms a compact head of bluish green flower buds resembling a head of cauliflower. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.15; lb. \$4.00; 5 lbs. \$18.00. Not prepaid: 10 lbs. \$32.50.

BRUSSELS SPROUTS

Highly prized for the small shoots, resembling miniature cabbages that are clustered around the stems. Plant July-September.

77 Long Island Improved. 90 days. Dwarf, compact and hardy. Sprouts rich deep green, firm and of finest quality. Pkt. 15c; ¼ oz. 40c; ½ oz. 75c; oz. \$1.25.

GREEN-PODDED BUSH BEANS

How to Grow Beans. Sow 1½ to 2 in. deep, 3 to 4 in. apart, in rows 2½ to 3½ feet apart. Cultivate often until plants blossom. Deep cultivation when in bloom will cause many flowers to fall, and cultivating when vines are wet with dew may cause rust and spread anthracnose if it is present. Two pounds will sow 100 feet of row; 60 pounds (bus.) an acre.

16 Stringless Black Valentine 48 days.

The oval pods are 6½ to 7 inches long, nearly straight, dark-green, distinctly stringless, and of fine quality and flavor. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.20; 60 lbs. (bus.) \$11.25; 120 lbs. (bag) \$21.50.

40 Keystonian. 52 days. All America Selection for 1944.

The round, straight, meaty and absolutely stringless pods are 6 to 6½ inches long, and of superb quality. ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.30; 5 lbs. \$3.00.

7 Tendergreen. 52 days.

A sensational new green-podded bush Bean, absolutely stringless and immensely productive. The deliciously flavored, lovely light green pods are 6 to 6½ inches in length, round as a pencil, very meaty, smooth and exquisitely tender and melting. Plants medium large, strong and vigorous. Splendid for home, market and canning. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

Bush Bean. Keystonian

10 Black Valentine. 48 days.

The dark, green pods are 6 to 6½ inches long, very uniform, round, slender and tender only when young. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.00; 60 lbs. (bus.) \$11.00; 120 lbs. (bag) \$21.00.

46 Burpee's Stringless. 52 days.

Enormously productive and hardy. The attractive, rich green pods are of medium length, slightly curved, and thick. Even when fully grown, the superb pods are meaty and juicy, lacking the faintest signs of any strings. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.55. Not prepaid: 15 lbs. (pk.) \$3.55; 60 lbs. (bus.) \$12.50; 120 lbs. (bag) \$24.00.

14 Giant Stringless. 53 days.

Bearing handsome stringless pods meaty, brittle, and medium green in color. Grow 6 to 6½ inches long and quite straight. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

11 Bountiful Stringless. 48 days.

The attractive, uniform pods are 7 to 7½ inches long, thick, flat, solid, of pale green color, straight, broad, quite meaty, meltingly tender, and of delicious flavor. Plants are large, hardy, disease-resistant and prolific. One of the best beans for the home garden or market. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

Stringless Black Valentine Beans

WAX PODDED BUSH BEANS

24 Sure-Crop Stringless Wax

53 days. Handsome, rich yellow pods, 6 to 7 inches in length; thick, very fleshy and brittle. Perfectly stringless. Valuable also for its disease-resisting qualities. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50. Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

30 Improved Golden Wax

48 days. A good rust-resister. The pods are golden yellow, fleshy, solid, brittle, waxy textured, and absolutely stringless. They have an exquisitely rich butter flavor. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.65. Not prepaid: 15 lbs. (pk.) \$3.85.

8 Davis White Stringless Wax

Also known as Gold Standard. 52 days. It has straight, flat pods, 6½ to 7 inches long, waxy yellow, perfectly stringless and tender. It is early and very productive. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.55. Not prepaid: 15 lbs. (pk.) \$3.55.

27 Pencil Pod. 52 days.

An early producer, bearing round, fleshy, golden yellow, tender, absolutely stringless pods, 6½ to 7 inches long, and of the finest quality. Plants are vigorous, and immensely productive. Seeds solid black. Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.55. Not prepaid: 15 lbs. (pk.) \$3.55.

Dutox. A non-ar-

senical insecticide. Kills Mexican Bean Beetle, Striped Cucumber Beetle, Flea Beetle, Blister Beetle and many other chewing insects. Apply as dust or spray. 1 lb. can 40c; 6 lb. bag \$1.50, postpaid.

Pole or Running Beans

Culture: Set 6- to 8-foot poles every 4 feet, in 4-foot rows, and plant 6 to 8 Beans around each pole. Thin to the 4 strongest. May also be planted in rows and supported by a wire fence or trellis, sowing 6 to 8 inches apart. A packet plants 20 hills.

70 Reuter's Stringless Black Creaseback.

60 days. Our own exclusive introduction. The green pods are 6 to 7 inches long, straight, round, absolutely stringless, tender and of finest eating quality. The vines are strong, vigorous, extremely productive and disease-resistant. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

47 Reuter's Ideal Market.

56 days. Our own exclusive introduction. Outyields all others and is the earliest of all green-podded Pole Beans. Pods are 5½ to 6 inches long, perfectly round, stringless when young, meaty and tender. Largely planted for shipping long distances, and unexcelled for table. Seeds solid black. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

33 McCaslan.

65 days. An astonishing yielder of large, rich, deep green pods 7 to 8 inches long, thick, flat, meaty, absolutely stringless and of delicious flavor. When allowed to ripen, the Shell Beans are pure white and are most excellent for winter use. If kept closely picked, vines continue to bear until frost. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

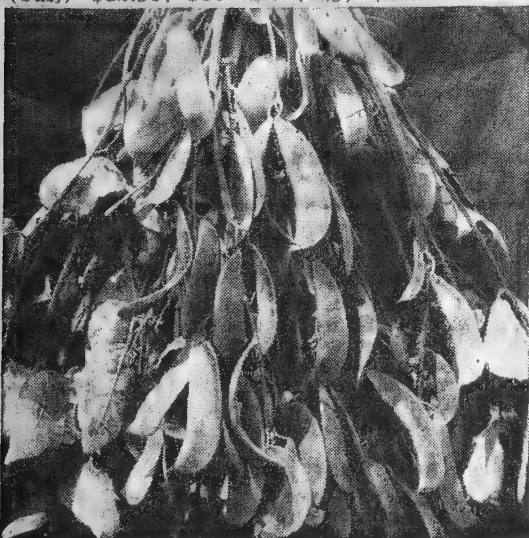

BUSH "BUTTER" or LIMA BEANS

38 Henderson Bush Lima.

65 days. The popular "Baby" Lima Bean. The compact bush grows 18 inches tall and bears a tremendous lot of pods 3 inches long and filled with 3 or 4 light green, small, flat Beans of a rich buttery flavor. When mature the Beans are white and keep well for winter use. Will produce continuously until frost. Largely planted for home, canning and market use. Most prolific of all the white seeded varieties, being the true bush form of the small Lima or "Sieva." **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.20; 60 lbs. (bus.) \$11.25; 100 lbs. (bag) \$18.00.

48 Burpee Improved Bush Lima.

75 days. The pods are truly enormous size, 5 to 6 inches, and usually contain 4 or 5 large, thick, meaty Beans of luscious true Lima flavor. They are borne profusely in clusters of from 6 to 8 held well above the foliage. The bushes are vigorous and hardy. A fine home-garden variety. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.55; 60 lbs. (bus.) \$12.50; 100 lbs. (bag) \$20.00.

Jackson Wonder or Calico

34 Kentucky Wonder.

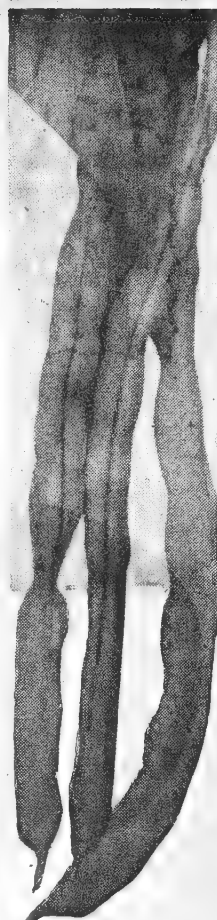

65 days. Also called Old Homestead. The best-known and most popular Pole Bean and should be in every Southern garden. Continues to bear until frost. Immensely prolific, a strong climber, hardy, and bears a tremendous crop of thick pods measuring 9 to 10 inches long, practically round, curved, meaty, slightly stringy, but fiberless and brittle. Plant Kentucky Wonders for the home, market and canning. (See illustration.) **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

36 Genuine Cornfield.

72 days. Unexcelled cornfield Bean for Snaps. Good climber and heavily productive. The pods are round, straight, light green, becoming purple spotted, 6 to 7 inches long, fleshy, of good quality, tender, and almost stringless. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

33-A Blue Lake.

65 days. This new variety of Pole Bean is a great improvement of the popular White Creaseback. It is entirely stringless at all stages. Very prolific and produces pods 6 inches long, straight, round and dark green. The strong vines grow about 5 feet high. It is highly recommended for canning purposes, and is unexcelled for the home garden. Being a white seeded variety, it is also a fine bean for drying and shelling. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 120 lbs. (bag) \$23.00.

Kentucky Wonder

39 Jackson Wonder or Calico.

65 days. This is the most productive and earliest of the Bush Limas. Practically drought-proof. Good for summer use or as a winter Shell Bean. It is of true bush form, about 2 feet high, bearing in greatest profusion broad, flat pods 3 inches long, each having 3 to 5 medium-sized, handsomely speckled Beans of rich and delicious flavor. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 100 lbs. (bag) \$19.00.

WINDSOR or FAVA BEANS

52 Horse Beans.

Esteemed by Italians for green shell use. They produce enormous, glossy green pods, 10 to 12 inches long, containing 6 to 8 very broad, fleshy, large, light green beans of delicious pea-like flavor. The plants are of strong upright bushy growth. Plant during October and November. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.20; 60 lbs. (bus.) \$11.25; 100 lbs. (bag) \$18.00.

41 Fordhook Bush Lima.

75 days. The strong, upright bushes produce "clusters" of very thick, plump, straight pods, 4½ to 5 inches long. Each contains 4 to 5 large, thick-oval, tender, green Beans. The superb flavor is outstanding—a delicious, sweet, buttery taste not unlike chestnuts. The plants grow 20 to 30 inches tall and spread about 2 feet. A profitable market variety. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.80.** Not prepaid: 15 lbs. (pk.) \$3.85; 60 lbs. (bus.) \$13.00; 100 lbs. (bag) \$21.00.

POLE LIMA OR BUTTER BEANS

42 Carolina or Sieva.

77 days. A heavy yielder. The dark green pods are 3½ inches long and contain 3 or 4 creamy white, flat, small Beans that are most tender and delicious. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.20; 60 lbs. (bus.) \$11.25; 100 lbs. (bag) \$18.00.

21 Giant Florida.

80 Days. Sensational new Pole Lima combining the distinctive qualities of the well-known Florida Butter with an enormous yield, surpassing the heavy production of most other Pole Limas. The pods are 5 to 6 inches long, and contain 4 to 6 big, thick beans that are creamy mottled with purple. The beans are exceptionally tender and have an excellent flavor. Vines easily attain a height of from 10 to 12 feet. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.80.** Not prepaid: 15 lbs. (pk.) \$3.65; 60 lbs. (bus.) \$13.00; 100 lbs. (bag) \$21.00.

19 Large White Lima.

88 days. Also known as "King of the Garden." Pods are 6 inches long, broad, flat, and contain 4 or 5 large greenish white Beans of superior quality. Productive over a long season. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.55.** Not prepaid: 15 lbs. (pk.) \$3.55; 60 lbs. (bus.) \$12.50; 100 lbs. (bag) \$20.00.

45 Florida Butter Bean.

78 days. Sure to bloom and bear. Makes an abundant crop under seasonal conditions that cause other varieties to fail. Vines tall and vigorous. Pods 3 to 3½ inches long and borne in clusters. The delightfully flavored Beans are speckled white and brownish red. **Large Pkt. (3 oz.) 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$3.40; 60 lbs. (bus.) \$12.00; 100 lbs. (bag) \$19.00.

TENDER *Rich Red* TABLE BEETS

FOR THE HOME AND MARKET

The growing of Beets constitutes an important commercial trucking industry in the South. Beets are also a good home-garden vegetable. The young plants are considered to be superior to spinach and turnips for greens. Reuter's Beet Seed is carefully bred and selected to produce smooth, uniform, beautifully formed, and attractive blood-red Beets of the finest quality.

55 Early Eclipse. 50 days. Extra early. Beets of uniform size, bright deep red in color, round, and have small tap-roots. Flesh is bright, glossy red, zoned pinkish white, unusually sweet, crisp and tender. Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.25; 5 lbs. \$10.50. Not prepaid: 10 lbs. \$20.00; 25 lbs. \$47.50.

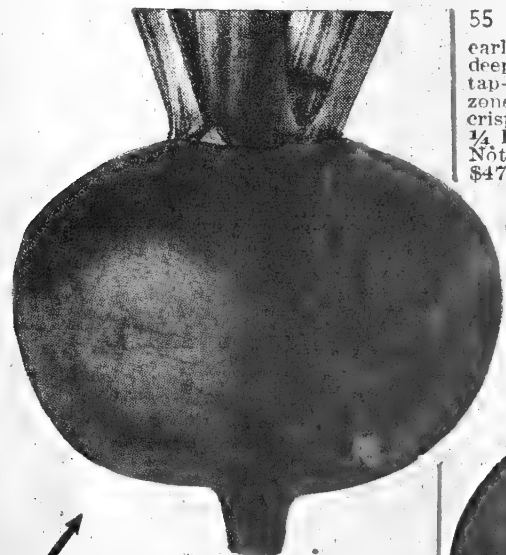

63-A Green-Top Bunching. 60 days. Attractive bunching beet. Foliage grayish-green and does not turn red. Roots round, smooth, slightly flattened. Flesh bright blood-red. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50; 5 lbs. \$11.75.

Culture. First plantings are made during August and September. Space the rows 18 to 24 inches apart. Work soil well and cover seed 1 inch deep. A rich sandy loam is preferable, but nearly all soils will produce Beets if sufficiently fertilized and properly cultivated. When well started, thin plants to 3 to 4 inches apart. One ounce will sow 50 feet of row; 5 to 6 pounds to an acre.

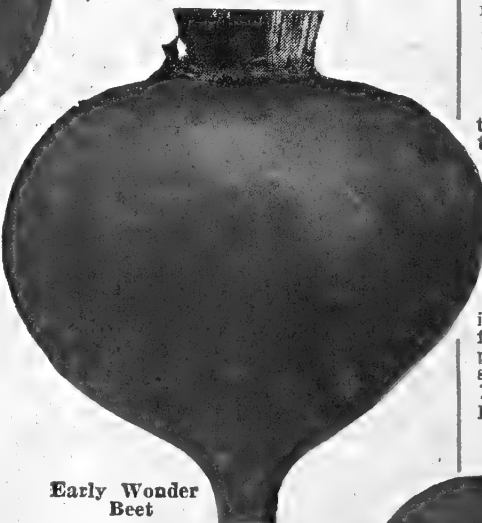

57 Edmand's Blood Turnip. 50 days. A quickly maturing, turnip-shaped Beet with deep blood-red skin and flesh. The tops are short and the roots almost round. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50; 5 lbs. \$11.75.

58 Perfected Detroit. 52 days. The finest strain of the famous Detroit Beet on the market today. It is the result of ten years of inbreeding and re-selection to produce a stock that has marvelously rich blood-red meat all the way through. It has no white or light colored zones in the flesh. Remains tender and of the highest quality until roots are fully grown. It cans red with no browns or purples. Superior for the table. Its globe-shaped roots are uniform in shape, color and size, and its uniform, small, slender and erect tops appeal to the commercial grower and shipper. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50; 5 lbs. \$11.75. Not prepaid: 10 lbs. \$22.50; 25 lbs. \$53.75.

54 Crosby's Egyptian. 48 days. An extra-early variety for home- and market-garden use. Unexcelled for bunching. Roots are smooth, round, with slightly flattened tops; small tap-root. The flesh is very dark blood-red. Tops are medium and the roots deep purplish red. Crisp and tender. Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.25; 5 lbs. \$10.50. Not prepaid: 10 lbs. \$20.00; 25 lbs. \$47.50.

Early Wonder Beet

65 Early Wonder. 45 days. A fine selection from Crosby's Egyptian, but a little smaller. It is the earliest and most perfectly shaped Beet for home- and market-garden. Valuable to truckers and shippers for bunching. The roots are nearly globe-shaped, blood-red, with small tap-root. Tops are medium small and erect. Flesh is beautiful deep blood-red, sweet, crisp, and tender. Our pedigreed stock is the result of many years of breeding. Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.25; 5 lbs. \$10.50. Not prepaid: 10 lbs. \$20.00; 25 lbs. \$47.50.

Perfected Detroit Beets

BEETS FOR STOCK FEEDING

Sow seed during the early fall and spring, in rows 2½ to 3 feet apart; thin to 10 inches apart. Plant 6 to 8 pounds of seed per acre.

SUGAR BEET

62 Klein Wanzleben. 75 days. Valuable for stock-feeding. Roots medium large—12 to 15 inches, 3½ to 4 inches at shoulder—tapered, white with tinge of gray. Very rich in sugar content; good keeper. As easily grown as the garden beet and should be left in the ground until frost to secure largest yields. When small they may be used for the table. Pkt. 10c; oz. 20c; ¼ lb. 45c; lb. \$1.50; 5 lbs. \$6.75. Not prepaid: 10 lbs. \$12.50; 25 lbs. \$28.75.

MANGEL WURZEL

61 Mammoth Long Red. 110 days. The most popular variety and best cropper. Produces from 30 to 50 tons per acre. Roots extremely large; light red; flesh white tinged rose. It is often two feet or more in length by six inches in diameter. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75; 5 lbs. \$8.25. Not prepaid: 10 lbs. \$15.50; 25 lbs. \$36.25.

69 Red Giant Eckendorf. 110 days. Grows mostly above the ground, and is, therefore, easy to harvest. The roots are very large. Pkt. 10c; oz. 20c; ¼ lb. 45c; lb. \$1.50; 5 lbs. \$6.75.

Mammoth Long Red

CARROTS

**FOR THE HOME
AND MARKET**

**GROW
PLENTY OF
CARROTS**

Because of their value as a health-food, Carrots are gaining wider recognition. Our special strains are selected for uniformity of color, size, shape, tops, and season of maturity; also for sweetness, tenderness and for a minimum of "core."

3 GRAND CARROTS

139 Emperor. 77 days. An outstanding strain bred for market-garden use and for shipping. It fills the demand for a longer type to compete on markets with California Carrots elongated under irrigation. The roots are 7 to 8½ inches long, graceful, smooth, and uniformly tapered to a semi-blunt end. Flesh is rich orange-red, extending to center of root, with indistinct core. The dark green tops are medium, but strong enough for good bunching. Finest quality for table use. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75. Not prepaid: 10 lbs. \$25.50; 25 lbs. \$61.25.

129 Danvers Half Long.

75 days. A prime favorite because of its brilliant market appearance. The smooth, handsome roots are 6½ to 7½ inches long, tapering uniformly to a blunt point. Flesh is a deep, bright rich orange color, tender, sweet, and crisp. When bunched it makes the most attractive Carrot on the market, thus always selling at top market prices. Our strain is outstanding. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75. Not prepaid: 10 lbs. \$25.50; 25 lbs. \$61.25.

130 Chantenay. 70 days. An improved long strain. Extensively grown in home- and market-garden and for shipping bunched. Roots are deep reddish orange, smooth, tapered, and stump-rooted. Average 5½ to 6 inches in length. The flesh is tender, of fine texture, and very sweet. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75. Not prepaid: 10 lbs. \$25.50; 25 lbs. \$61.25.

Emperor

CELERY. For an early crop, first sowings in Florida and along the Gulf Coast are made the latter part of June. Main sowings for a winter crop are made through September. Start seed in partly shaded seed-beds of very rich, fine, loose soil. Cover seed not over ¼ inch. Transplant when 6 inches high, in rows 24 inches apart, and set the plants 6 inches apart in the rows. One ounce will produce 3,000 plants; 2 to 4 ounces will set an acre.

Golden Plume

159 Golden Plume.

115 days. Resembles Golden Self-blanching, but is earlier. Plants medium-sized, stocky, full hearted and compact, with thick, solid stalks which blanch readily. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.50; lb. \$8.50.

155 Golden Self-blanching. 120 days. Medium in height, stocky and compact; foliage yellowish green. Stalks very solid, broad, of delicate, nutty flavor. It blanches readily to golden yellow. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.50; lb. \$8.50.

156 White Plume. 112 days. An extra-early variety. Leaves bright green, tinged white; stalks medium, easily blanched to pure white; solid, crisp, and of fine quality. Pkt. 10c; oz. 50c; ¼ lb. \$1.75; lb. \$6.00.

158 Celeriac. (Turnip-rooted Celery.) The edible roots are 3 to 4 inches in diameter and globular. Used as flavoring, boiled or as a salad. Pkt. 10c; oz. 50c; ¼ lb. \$1.75; lb. \$6.00.

Culture: Sowings commence in August for a fall or winter crop. Plant the seed ½ inch deep in loose, deep, well-prepared soil, making rows 16 to 24 inches apart. Cultivate as soon as plants are established and thin to 3 to 4 inches in the rows, according to the size of the variety. One ounce will sow 100 feet of row; 3 to 4 pounds, an acre.

136 Coreless Chantenay. 70 days. Accepted with enthusiasm by shippers and canners. Roots of the same size and shape as Chantenay; flesh reddish orange, with indistinct core of nearly the same color as the flesh. Tender and sweet. Its superb color, fine quality, combined with heavy yield, will undoubtedly make this the most popular variety on the market when it becomes better known. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75. Not prepaid: 10 lbs. \$25.50; 25 lbs. \$61.25.

142 Danvers Half Long, Red Cored.

75 days. An improved strain of the popular Danvers Carrot with indistinct red core making it especially desirable for market gardeners and shippers. The roots are 7½ to 8 inches long, 1½ inches in diameter at shoulder tapering to a blunt point. The flesh is a deep rich orange color. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75. Not prepaid: 10 lbs. \$25.50; 25 lbs. \$61.25.

132 Oxheart. 70 days. Especially desirable on heavy soil for home use. Roots are 4½ to 5 inches long, bright orange, thick, blunt-ended, of heart shape. Flesh deep orange and the tops are small. Being very short they are easily pulled from the ground, where long sorts have to be dug. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$3.00; 5 lbs. \$13.75.

140

Louisiana Danvers

75 days. A highly refined strain of Danvers developed for commercial production in the South by the Louisiana Experiment Station. Retains a deep rich orange color under our usual adverse weather conditions. The heavy tops are of convenient bunching size. The core is small. Pkt. 10c; oz. 30c; ¼ lb. 90c; lb. \$3.25; 5 lbs. \$15.00.

Louisiana Danvers

138 Scarlet Nantes.

68 days. The bright orange roots are 6 to 7 inches long, cylindrical and stump-rooted. Crisp, tender, and of very delicate flavor; practically coreless. Pkt. 10c; oz. 30c; ¼ lb. 90c; lb. \$3.25; 5 lbs. \$15.00.

STOCK CARROTS

The value of root-crops for stock is just beginning to be fully appreciated. They impart a beautiful butter-yellow color to the milk when fed to milch cows. Four pounds will sow an acre.

133 Long Orange. 85 days. A heavy cropper on light soils. The thick, tapering roots are 10 to 12 inches long, deep scarlet-orange color. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.75; 5 lbs. \$12.50. Not prepaid: 10 lbs. \$23.00; 25 lbs. \$55.00.

134 Large White Belgian. 90 days. Roots grow 10 to 14 inches long, partly out of the ground; skin green above ground, white below. Flesh white with tinge of cream color. Pkt. 10c; oz. 20c; ¼ lb. 55c; lb. \$1.75; 5 lbs. \$8.00. Not prepaid: 10 lbs. \$15.00.

REUTER'S PURE BRED CABBAGE SEED

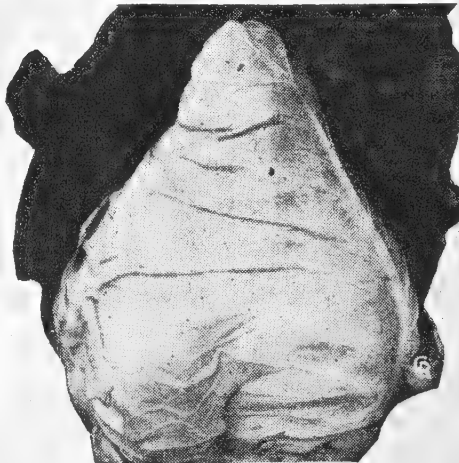

Highest in Yield!

Golden Acre Cabbage

83 Charleston Wakefield.

71 days. About a week later than Early Jersey Wakefield, but the conical heads are fully one-half larger, less pointed, and usually weigh 4 to 5 pounds. The heads are broad, heart-shaped, 8 inches long, 7 inches broad at base, firm, very solid, and a heavy yielder. Largely used in the South for spring shipping to northern markets and also excellent for the home garden and truckers. Pkt. 10c; ½ oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75. Not prepaid: 10 lbs. \$32.50.

Charleston Wakefield

89 Copenhagen Market.

65 days. This world-famous Cabbage is distinctly early, solid, and positively sure-heading. Profitable for early market and shipping. Plants are small, compact, allowing very close planting. The growth is uniform and restrained. Heads are perfectly round, medium light green, 6 to 7 inches in diameter, and weigh 3½ to 4 pounds. Interior color clear white and of superior quality. Pkt. 10c; ½ oz. 25c; ¼ lb. \$1.35; 5 lbs. \$4.50; 10 lbs. \$21.50. Not prepaid: 10 lbs. \$40.00.

Chihili
Chinese Cabbage

Chinese Cabbage. 55 days.

Healthful and tasty, either cooked or raw, Chinese Cabbage is becoming quite popular in the South. Can be served like lettuce, or it makes a delicious cole-slaw. Boiled, it is far more palatable than ordinary Cabbage.

82 Chihili. A sure-heading variety with erect, dark green leaves which enclose a cylindrical pointed head 18 to 20 inches long. The heads are very compact and are white with a delicate tint of green. Pkt. 10c; ½ oz. 30c; ¼ lb. 85c; lb. \$2.75; 5 lbs. \$12.75.

Cabbage
Copenhagen
Market

Culture. Plantings commence in July and are continued throughout the fall months for a winter crop. When started in seed-beds, sow thinly in drills 6 inches apart, covering seed about ½ inch. When 4 to 6 inches high, transplant to the garden or field. Set the early varieties at intervals of 18 inches, in rows 2½ to 3½ feet apart; the larger and later sorts, 2 feet apart in 3½- to 4-foot rows. An ounce of seed will produce 1500 plants; ½ pound, an acre. The maturity dates indicated are the average number of days required to produce heads ready for market from the time the young plants are set in the field.

102 Golden Acre.

60 days. The earliest round-headed Cabbage and especially valuable for early market and for shipping. Plants very small and compact, with short stems. The heads are uniformly round, firm, usually 6 inches in diameter, weigh 3 pounds, and are of superb quality. Similar to Copenhagen Market but several days earlier and the heads are smaller. We advise planting the stock 12 inches apart in the row. Pkt. 10c; ½ oz. 25c; ¼ lb. \$1.35; lb. \$4.50; 5 lbs. \$21.50.

99 Resistant Golden Acre.

62 days. This is a new "yellows" resistant type of Golden Acre. It should prove invaluable to growers in localities where "yellows" is prevalent. Pkt. 10c; ½ oz. 25c; ¼ lb. \$1.45; lb. \$5.00.

94 Early Dwarf Round Dutch.

71 days. Splendid home and market garden variety. The small compact plants produce almost ball-shaped heads, 7-8 inches in diameter, weighing 4½-5 lbs. Firm and of high quality. Very slow to go to seed. Pkt. 10c; ½ oz. 25c; ¼ lb. \$1.40; lb. \$4.75; 5 lbs. \$22.75.

84 Early Jersey Wakefield.

62 days. Our stock is characterized by its distinctive, smooth, blue-green leaves. It has all the elements that count for cold-resistance and unusually early maturity. The small, compact, hard, conical heads are 7 inches long, 5 inches wide at the base, and weigh 2 pounds. Plants small, with short stems, permitting close setting in the row. Valuable for the home- and market-garden. Pkt. 10c; ½ oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75. Not prepaid: 10 lbs. \$32.50.

93 Surehead.

90 days. Always sure to head. The uniform heads are large, usually weigh 10 to 15 pounds, round and somewhat flattened, extra hard and of fine texture. Good for late summer and early fall planting in Florida and Gulf Coast sections. Pkt. 10c; ½ oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75.

90 Disease-Resistant Copenhagen Market.

75 days. A "yellows"-resistant strain of the famous Copenhagen Market. Not so early nor so uniform as the original strain, but with the round head and crisp tenderness of the parent Cabbage. Will produce a normal crop on "yellows"-infected soil. If you have trouble growing Cabbage owing to "yellows" disease in your locality, try this resistant variety. Pkt. 10c; ½ oz. 25c; ¼ lb. \$1.35; 5 lbs. \$4.50; 10 lbs. \$21.50. Not prepaid: 10 lbs. \$40.00.

Produce More MARKETABLE HEADS ON EVERY ACRE!

97 Glory of Enkhuizen. 75 days. A high-yielding, round-headed shipping variety, maturing 10 days later than Copenhagen Market and weighing fully 6 pounds. The heads are very solid, with few outer leaves, and of fine flavor. Its distinguished blue-green color is attractive. The remarkable uniformity of our stock appeals to large, critical commercial growers and shippers. Fine variety for making Kraut. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.35; lb. \$4.50; 5 lbs. \$21.50. Not prepaid: 10 lbs. \$40.00.

98 Wisconsin Ball Head. 80 days. It is a very highly yellow-resistant variety. Matures in 10 days to two weeks earlier than Wisconsin Hollander No. 8 and is more uniform. The heads are very solid when small and continue to grow larger and more solid, but will not burst. Being a slower grower they withstand more severe weather conditions than earlier-growing strains. A fine shipping variety. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; lb. \$5.25; 5 lbs. \$25.25. Not prepaid: 10 lbs. \$47.50.

92 Stein's Early Flat Dutch.

90 days. A favorite commercial variety because of its ability to produce a crop under unfavorable conditions. The large heads are nearly round or somewhat flattened, firm, very solid, 6 inches deep, and usually weigh about 10 pounds. The plants are short-stemmed, compact, and upright, with few outer leaves. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75. Not prepaid: 10 lbs. \$32.50.

100 Wisconsin Hollander No. 8.

90 days. Yellows Resistant. The heads are large, weigh 7 to 9 lbs., round, becoming slightly flattened, very firm, color blue-green. A heavy cropper. Splendid for shipping and market. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; lb. \$5.25; 5 lbs. \$25.25. Not prepaid: 10 lbs. \$47.50.

78 Red Hollander. 100 days. A desirable yellow resistant Red Cabbage with round, very uniform heads. Foliage purple-red becoming deeper in color with maturity. The heads are solid and compact from the time they form permitting early cutting if desired. Fine for cole-slaw and pickling. It is an ideal shipping variety and an excellent keeper. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.70; lb. \$5.75; 5 lbs. \$27.75. Not prepaid: 10 lbs. \$52.50.

Stein's Early Flat Dutch Cabbage

85 Globe. 75 days. A highly yellow resistant strain of the popular Glory of Enkhuizen with uniform globular and very compact heads. It is heavy yielding and highly recommended for the commercial growers and shippers. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.45; lb. \$5.00; 5 lbs. \$23.75. Not prepaid: 10 lbs. \$45.00.

80 Midseason Market. 73 days. A money-maker for South Texas cabbage growers. The heads are round, deep, very firm and weigh 3 to 4 lbs. or more. Very uniform in size and shape. Responds to close planting, producing excellent globular heads for shipping. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.30; lb. \$4.25; 5 lbs. \$20.25. Not prepaid: 10 lbs. \$37.50.

86 Allhead Early. 77 days. Increasing in popularity, especially in Southern Texas, where it is showing high resistance to disease. The deep heads are flat, slightly rounded at top, 8 to 9 inches broad, 6½ to 7 inches deep, and usually weigh 6 pounds. Uniform in size and color, the solid heads are of the finest quality. A heavy yielder. Withstands drought and heat better than most varieties. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75. Not prepaid: 10 lbs. \$32.50.

101 Wisconsin All-Season.

90 days. Very valuable in localities infested with the destructive disease known as "Cabbage Yellows." Heads are large, 10 to 12 inches across, 8 inches deep, and weigh 10 pounds. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.35; lb. \$4.50; 5 lbs. \$21.50. Not prepaid: 10 lbs. \$40.00.

95 American Savoy.

85 days. Excels all others in table quality. The solid heads are flattened globe-shape, medium large, very finely crimped and deep green. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.75; 5 lbs. \$17.75. Not prepaid: 10 lbs. \$32.50.

75 Allyear.

75 days. A new Cabbage developed by Dr. Julian C. Miller, Head of Research in Horticulture, Experiment Station, Baton Rouge, La. The heads are round and usually weigh 3½ to 4 pounds. Resistant to heat and cold and may be successfully planted almost the year around in the extreme south. Heads slow in cracking. Good shipper. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; lb. \$5.25; 5 lbs. \$25.25. Not prepaid: 10 lbs. \$47.50.

REUTER'S CABBAGE PLANTS

These are strong, open field-grown plants. Seldom freeze unless the temperature drops below 20°. We ship millions of these frostproof plants direct from our growing stations year after year to satisfied and loyal customers. All plants must be paid for in advance. No order filled for less than 250 plants of the same variety.

NOTE: Please order early. Due to wartime conditions we cannot guarantee delivery on any specific date. It may take from two to four weeks before plants can be shipped.

Vegetable Seeds

Wisconsin All-Season Cabbage

REUTER SEED CO., Inc., New Orleans

Enjoy FRESH VEGETABLES Year round

CAULIFLOWER

Cauliflower is not difficult to grow. If your garden produces good cabbage, it should successfully grow Cauliflower. It is one of the garden's most delectable luxuries.

Culture. July, August, and September are the best planting months for the winter crop. Requires rich soil and abundant moisture. Culture same as for cabbage, except the heads must be protected from sunlight in order to insure the much-desired white curd, except when the foliage is heavy and erect. One ounce will produce 2,000 plants; $\frac{1}{2}$ pound, an acre. We have indicated the number of days usually required to produce heads, from date young plants are set in the field.

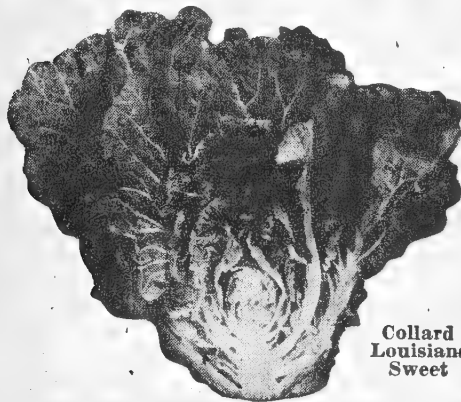

144 Early Snowball. 55 days from plants. Our cauliflower seed is grown for us by one of the foremost American specialists and for early maturing, we believe our strain is equal, if not superior, to any stock of Snowball being offered, regardless of price. The large heads are pure snow-white, solid, finely grained and very deep. It heads so evenly that the entire crop may be harvested within a short time after it begins to mature. The plants are quick-growing and vigorous, and the erect leaves are quite large and curl over the heads protecting them from the sun. The compact heads make a beautiful appearance on any market and always sell for the highest prices. **Pkt. 20c; $\frac{1}{4}$ oz. 70c; $\frac{1}{2}$ oz. \$1.25; oz. \$2.25; $\frac{1}{4}$ lb. \$8.00; lb. \$30.00.**

Plant Collards for "Greens"

COLLARDS

Culture. The old-time standby for winter "greens." Grown about the same as cabbage. May be started in seed-beds or planted direct in the field, spacing the plants 18 to 24 inches apart each way. Ready in 50 days.

One ounce will sow 200 feet of row; 6 ounces, an acre.

Collard
Louisiana
Sweet

182 Louisiana Sweet. Developed by Dr. Julian C. Miller of the Louisiana Experiment Station and has been bred to produce a definite uniform plant having a deep, compact, rosette center, leaves with short petioles or stem and free of purple or red color. Recommended to commercial growers and shippers. **Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50; 5 lbs. \$6.25.** Not prepaid: 10 lbs. \$11.00.

178 Southern or Georgia. The plants grow to a height of 2 feet and form large, loose, open heads, or a cluster of succulent leaves with a rather long stem. Very hardy. Grows on land too poor to produce cabbage. **Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50.** Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

179 Cabbage-Collards. A cross between the Georgia Collard and the Charleston Wakefield Cabbage, bred for the hardiness of the Collard and the flavor and heading qualities of the Cabbage. More tender and better flavored than either. Does not winter-kill. **Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50.** Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

180 Green Glaze. A sweeter, milder and more tender variety of Collards, which is somewhat of a heading type. It is seldom attacked by insects. **Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50.**

Reuter's
Spinach-
leaved
Swiss
Chard

SWISS CHARD

Assures you an abundance and never-failing supply of fine "greens" all through the summer and fall months. Gives maximum returns for little care and space. Gather when half grown for best flavor. Cut close without injuring the heart of the plant, and another crop will spring up. Grows in any ordinary garden soil. Sow in rows 12 inches apart, and thin to 5 inches apart in the row. One ounce will sow 100 feet of row; 4 to 5 pounds, an acre.

SEA KALE BEET

64 Giant Lucullus. 55 days. The rich green, fleshy, heavily crumpled leaves of this variety make very tasty "greens." The erect plants attain a height of 2 to 2 $\frac{1}{2}$ feet. Largely sought after by those who prefer the thick, creamy white stems or stalks which are edible and tender, and may be served as a separate dish like asparagus. The leafy part can be cooked like spinach or turnip-greens, or if desired the whole leaf can be boiled and served as "greens." There is a delicious, delicate flavor not found in either turnips or kale. **Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50; 5 lbs. \$7.00.** Not prepaid: 10 lbs. \$13.00; 25 lbs. \$30.00.

ORDER
EARLY!

SPINACH LEAVED SWISS CHARD

68 45 days. Distinct from other Chards; highly prized because of its superior flavor, entirely without the somewhat bitter taste of ordinary Swiss Chard. You will relish it like a good variety of spinach. The dark, glossy green leaves are fairly smooth. The lighter green midribs are tender and edible. Cooked and served as "boiling greens" in the same way as spinach. It is very hardy and withstands severe summer heat; therefore available when spinach cannot be grown. Many people who detest spinach find our green-leaved Swiss Chard a more palatable substitute. **Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25; 5 lbs. \$5.50.** Not prepaid: 10 lbs. \$10.00; 25 lbs. \$22.50.

LETTUCE

With the discovery of its valuable health-giving vitamins, Lettuce has become a year-round table necessity. It is so easily grown that no garden need be without a generous supply.

Culture. First sowings are made in Lower South during September and continued through fall months. Requires rich soil, plenty of moisture, and a quick, steady growth from the time seeds are planted until the heads are ready for use. Broadcast the seed on good moist beds or sow in rows 6 inches apart, covering not over ½ inch deep. Place burlap or old fertilizer sacks over the beds to protect from extreme heat until seeds sprout. One common cause of failure to get Lettuce to head properly is not giving plants sufficient room for development. When leaves are 2 to 3 inches long, transplant to open ground in rows 15 to 18 inches apart and 8 to 10 inches apart in the rows. Commence shallow cultivation when plants are 10 days old and repeat frequently. One ounce will sow 150 feet of row; 2 to 3 pounds an acre.

324 Grand Rapids. A loose leaf type. Best for forcing. The plant is upright and forms a loose cluster of large, thin, bright green leaves, savoyed, finely crimped at edges. Attractive for garnishing. Pkt. 10c; oz. 25c; ¼ lb. 60c; lb. \$1.85; 5 lbs. \$8.75. Not prepaid: 10 lbs. \$16.00.

Reuter's Florida Iceberg Lettuce

322 Iceberg. 80 days. Curled, crisp plants of medium size, producing medium green, wavy, fringed leaves having edges that are tinged with light brown. The heads are compact, medium large, with few outer leaves, and most delicious, crisp tender hearts blanched to a silvery white. Withstands quite hot weather. Should not be confused with New York, which is grown and shipped from the West under the name of "Iceberg." Crop very short. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.35; 5 lbs. \$10.75. Not prepaid: 10 lbs. \$20.50; 25 lbs. \$48.75.

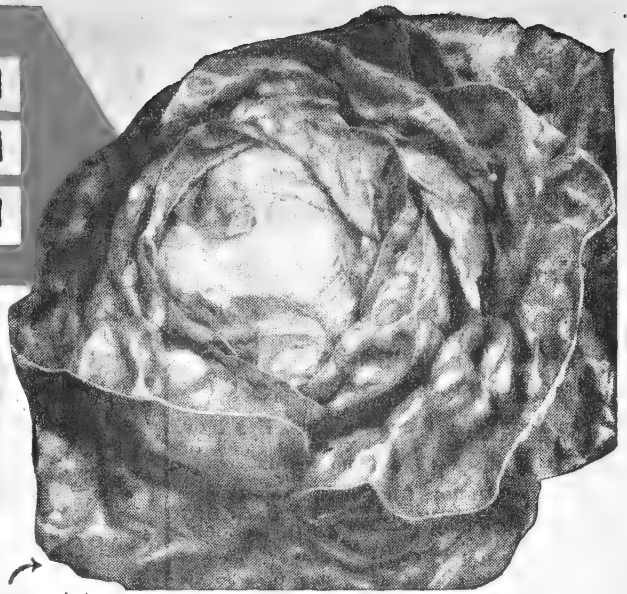

318 New York Lettuce. 80 days. (Wonderful.) Produces immense heads as solid as a cabbage. Blanches beautifully; crisp, tender, and free from bitterness. The perfect heads measure 12 to 15 inches across and frequently weigh 2 to 3 pounds each. Outer leaves tightly overlap and are an attractive rich green. The heart is creamy white and the quality superb. Largely grown in the West and shipped to eastern markets as "Iceberg." Our special strain will stand heat very well. Pkt. 10c; oz. 30c; ¼ lb. 95c; lb. \$3.25; 5 lbs. \$15.50. Not prepaid: 10 lbs. \$30.00.

325 White Boston. 75 days. A high-class strain of the pale green-leaved Big Boston type that does not have the red tinge on the edges of the leaves. The firm, solid heads are of good size; the heart is buttery and yellow and of finest table quality. Pkt. 10c; oz. 20c; ¼ lb. 70c; lb. \$2.25; 5 lbs. \$10.25. Not prepaid: 10 lbs. \$19.50.

ROMAINE

321 Paris White Cos. 75 days. It produces tender leaves of fine flavor. May be served green or blanched by tying up the heads. Withstands heat and cold better than the heading varieties. Flavor is sweet, crisp, and agreeably snappy. Succeeds well everywhere. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75; 5 lbs. \$8.00. Not prepaid: 10 lbs. \$15.00.

323 Chicken Lettuce. 50 days. When cut it starts at once to grow again. The leaves can be pulled off each stem. Grows 3 to 4 feet high. Grown entirely for poultry- and rabbit-feed. Does not head. Pkt. 10c; oz. 20c; ¼ lb. 55c; lb. \$1.75; 5 lbs. \$8.25. Not prepaid: 10 lbs. \$15.00.

319 Mammoth Big Boston. 75 days. The heads are extra large and compact, finely shaped, globular, medium light green, with a slight tinge of brown on margins of outer leaves. Leaves are broad, smooth, but wavy at edge. The head itself is firm, solid, and brittle; the interior is rich creamy yellow. It is very early and a sure-heading sort. Our stock is reselected and will meet the requirements of the most exacting trucker and shipper. Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$2.10; 5 lbs. \$9.75. Not prepaid: 10 lbs. \$18.50.

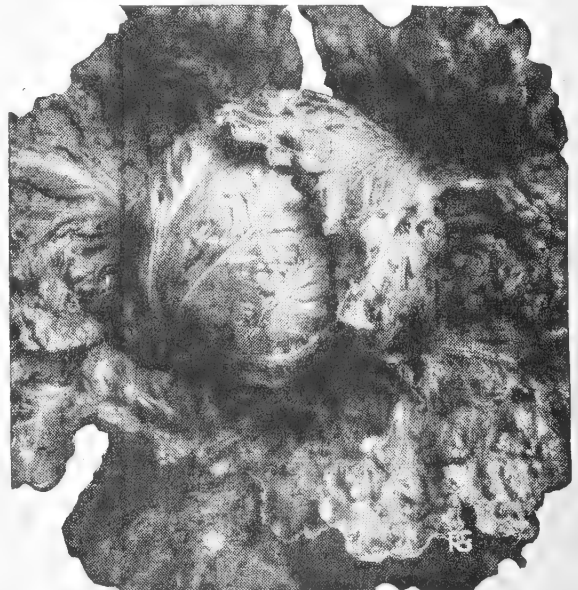

REUTER'S FLORIDA ICEBERG

320 80 days. A new strain of Iceberg developed largely for the South and more especially Florida.

Withstands heat and high humidity, is very slow to go to seed, and makes large, firm, hard heads even in hot weather, when other strains under the same conditions, either develop seed stalks or make spongy heads. The thick, smooth leaves fold well over the heads. Heads have a very large frame, with a solid, compact base, are round in shape, medium green in color and crisp and tender. This variety should be grown slowly and with less fertilizer than other types. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.50.

315 Great Lakes. 1944 All-America Bronze Medal Winner. This outstanding new Lettuce of Iceberg type has proven itself remarkably adapted for the South. It will stand the heat and sun and is unusually slow to go to seed. It is very resistant to tip-burns. It was tested in a few commercial crops last year and the reports were very enthusiastic. Pkt. 20c; oz. 65c; ¼ lb. \$2.25; lb. \$8.00.

326 Imperial No. 44. 80 days. Withstands heat and high humidity. The heads are large, well-formed and uniform in size. Very slow to go to seed. Produces solid, hard heads over a long season. Splendid for home and market. Pkt. 10c; oz. 25c; ¼ lb. 85c; lb. \$2.75; 5 lbs. \$12.75. Not prepaid: 10 lbs. \$24.50.

New York or Los Angeles (Wonderful) Lettuce

Vegetables for Summer &

Treat Before Planting With

SEMESAN

FOR DISEASE PROTECTION

Semesan for all small seeds. Use 1 oz. for 15 lbs. $\frac{1}{2}$ oz. 10c; 2 ozs. 40c; 1 lb. \$2.50; 5 lbs. \$11.40. postpaid.

Apply VITAMIN B₁ while watering
with THOMPSON'S PELLETS
and B-1 VITAMIZER

\$1 (with 100 PELLETS \$1.89)

VITAMIN B₁

Applied regularly will produce hardier, larger and healthier plants, and materially increase the size of the flowers.

Box of 10 Pellets, 25c.

Box of 100 Pellets, \$1.00, postpaid.

Vitamizer. Fits all standard garden hose nozzles. Holds 1 to 6 pellets automatically dissolving and distributing the proper solution. Made of enduring brass—no moving parts, \$1.00, postpaid.

Combination Offer: Box of 100 Pellets and Vitamizer, \$1.89, postpaid.

ROOTONE

Reg. U. S. Pat. Off.

Rootone is a root-forming stimulant. When applied to cuttings, seeds or bulbs it promotes root forming in much shorter time and minimizes the loss due to slow rooting or sprouting. 1/4 oz. 25c; 2 ozs. \$1.00; 1 lb. \$5.00, postpaid.

TRANSPLANTONE.

Invigorates roots and reduces loss in transplanting seedlings, rose bushes, plants, shrubs and trees. Specially recommended when transplanting out of season. 1/2 oz. 25c; 3 ozs. \$1.00, postpaid.

PLANTABBS

are highly recommended for all plants. They promote a vigorous and luxuriant growth with large blooms in vivid colors. 36 tablets, 25c; 90 tablets, 50c; 240 tablets, \$1.00; 2 lbs. tablets, \$3.00, postpaid.

Hyponex.

A complete concentrated plant food containing Vitamin B-1, and all the elements needed for strong, healthy, successful plant growth. Highly recommended for all in or outdoor plants. One of the finest plant foods for both soil or soilless cultures. Order early as stock is limited. 3 oz. can 30c; 1 lb. can \$1.10, postpaid.

MUSTARD

for "Boiling Greens"

Mustard is not only used as a condiment, but the large green leaves are used as a salad, or boiled like spinach and served as "greens." They are fully as healthful and nourishing as spinach. Produces an abundance of tender, succulent leaves in four to five weeks.

Culture. Sow frequently, in rows 12 to 18 inches apart, covering seed $\frac{1}{2}$ inch deep. Thin plants to 5 to 6 inches apart in the rows. Give clean cultivation. The plants are in condition for use as soon as the leaves are the size of one's hand. Mustard runs to seed quickly, so that successive plantings are necessary for a continuous supply. One ounce will plant 100 feet of row; 2 to 3 pounds, an acre.

Florida
Broad-Leaved
Mustard

KALE or BORECOLE

Culture. Grown extensively for "greens." Hardier than cabbage. Sow during early fall and spring, either broadcast or in rows. For large plants, have rows 2 feet apart, and thin to 2 feet in rows. Matures in 90 to 100 days. One ounce will sow 200 feet of row; 4 pounds, an acre.

67-A Siberian. 85 days. The large plants grow about 12 to 15 inches tall with a spread of 3 feet or more. Produce numerous large, thick, frilled leaves of a deep green color. A very heavy yielder. Will stand severe adverse weather conditions. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50; 5 lbs. \$7.00. Not prepaid: 10 lbs. \$13.00.

ENDIVE

One of the most piquant and tasty salads grown; makes a beautiful garnish, and is splendid for greens. Sow from August, in rows 18 inches apart, covering seed firmly with $\frac{1}{2}$ inch soil. Thin plants to 10 to 12 inches in the row. One ounce will sow 100 feet of row; 2 to 3 pounds, an acre.

249 Large Green Curled. Rose-Ribbed. 90 days. The finely cut, rich green leaves blanch in the center to an attractive, delicate creamy white. The midribs are usually tinged with rose. Flavor is refined, appetizing and slightly pungent. Hardy and vigorous grower. Fine for market and highly recommended for the home garden. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50; 5 lbs. \$7.00.

251 Full Heart Batavian. 90 days. This is a new and improved strain with larger leaf, broader, thicker head at eating stage, and earlier in maturity. Our distinguished strain is highly recognized by growers where Escarolle is grown for shipment on a large scale because it is the genuine full-heart type, developing an upright growth, producing a very heavy, thick, matted plant with large, deep, well-balanced hearts, which blanch to a creamy white. Buttery in texture and of splendid quality. It replaces the old Broad-Leaf Batavian entirely. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50; 5 lbs. \$7.00.

343 Florida Broad-Leaved.

This is a quick-growing and very productive variety which remains in condition for use a long time without bolting to seed. The leaves are rounded, very slightly crumpled, unfrilled, and very large. They are medium light green in color, with a broad, pale green midrib. It is valuable and popular. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

344 Fordhook Fancy. Attractive plants of vigorous growth with beautiful, long, slender, dark green, finely curled leaves having deeply cut edges. These curve outward like a fine ostrich plume. A strong grower and heavy yielder. The flavor is mild. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25; 5 lbs. \$5.50.

Chinese Broad-Leaved Mustard

341 Southern Giant Curled.

Leaves are large, light green, crimped and frilled at edges. The plant is upright or slightly spreading in growth. Can be eaten like lettuce or boiled for "greens." Highly valued on account of its vigorous growth, hardiness, and good quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

342 Chinese Broad-leaved.

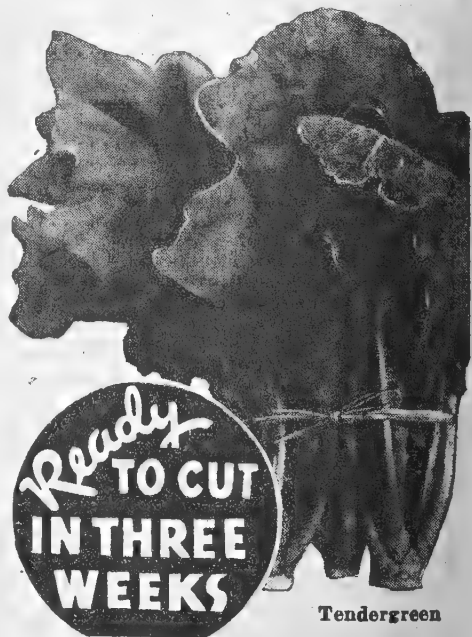

Leaves are round and smooth, rough in texture, very dark green, and about 9 inches long and 8 inches broad. A little slower growing than the frilled varieties, but longer standing. Tender, mild and free from bitter flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00.

TENDERGREEN

Stays Green & Tender

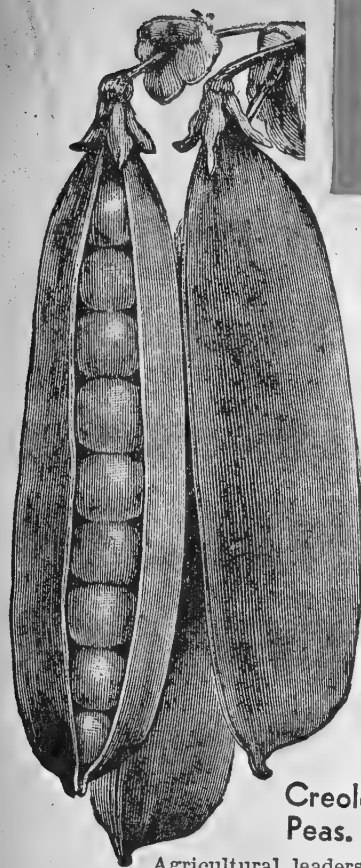

346 A new vegetable combining the delicious flavors and healthful qualities of spinach, mustard, and turnip-greens. It contains an abundance of protein, mineral matter, lime, and iron. Do not fail to plant this delicious and tasty new vegetable in your garden. We believe that Tendergreen is going to become America's most popular vegetable for "greens."

Tendergreen has small, thin roots, and large, succulent, oblong leaves, rich dark green in color, with narrow white center rib. The leaves are prepared for table use in the same manner as spinach or turnip-tops. It is very prolific and bears abundantly. The plants are ready for use in 21 to 25 days after planting. Slow to go to seed. Successive sowings may be made during the whole year. Flourishes during hot, dry summer weather and is resistant to drought and extreme cold. Use 3 to 4 pounds of seed per acre in rows (1 ounce of seed to 50 feet of row) with rows 2 to 2 $\frac{1}{2}$ feet apart. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25; 5 lbs. \$5.50. Not prepaid: 10 lbs. \$10.00.

Tendergreen

FRESH GREEN PEAS

Creole Peas.

Agricultural leaders are convinced of the tremendous possibilities of these unusual peas as a food and soil-building crop throughout the Gulf Coast section. Produces a heavier yield of green matters per acre than Austrian Winter Peas and can be turned under three months earlier.

420 World's Record. 55 days. Vines are 2½-3 feet tall. Pods 3½-4 inches long, and contain 7 to 8 large, tender peas of delicious flavor. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 15 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

421 Bliss' Everbearing. 72 days. Vines dark green, coarse, and branching, usually 30 inches tall. Pods are 3 inches long, light green, straight, plump, blunt, and contain 4 to 5 large, sweet Peas of marrowy texture. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

402 Pedigree Extra Early.

50 days. Earliest and most even strain. Its well-filled pods are 2½ inches long and contain small, beautiful green Peas. The productive and hardy vines grow 2 feet high. Entire crop can be gathered at one picking. **Large pkt. 10c; ½ lb. 20c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30.** Not prepaid: 15 lbs. (pk.) \$2.65; 60 lbs. (bus.) \$9.00; 120 lbs. (bag) \$17.00.

404 Early Alaska. 50 days. Used extensively for canning; also by market gardeners for a first-early crop. Vines slender, light green, and grow about 2½ feet tall; bear well-filled, square-ended, bluish green, round, straight pods 2½ inches in length. Seed small, smooth, and bluish green. Very hardy and prolific. **Large pkt. 10c; ½ lb. 20c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30.** Not prepaid: 15 lbs. (pk.) \$2.65; 60 lbs. (bus.) \$9.00; 120 lbs. (bag) \$17.00.

Culture. In Florida and along the Gulf Coast, sow during October and November. In the Central South, commence to plant early in September. Sow in double rows and the vines will support each other. The double rows should be 2½ to 4 feet apart, and the seeds planted 1½ to 2 inches deep, 6 to 8 inches apart. One pound will plant 50 feet of row; 1½ bushels an acre.

411 Creole. 60 days. Introduced by early French settlers in Louisiana a hundred years ago. Withstands severe heat and extreme cold—survives when all other Peas are killed. Pods are 3 to 3½ inches long and packed with 5 to 7 sweet, smooth, green Peas. Retains tenderness and sweetness after it is matured. Vigorous vines average 6 to 7 feet—bear an abundance of Peas from bottom to top of vines. Immune to root rot, mildew and insect pests. **Large pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.75.** Not prepaid: 15 lbs. (pk.) \$3.00; 60 lbs. (bus.) \$11.00; 120 lbs. (bag) \$21.00.

407 Laxton's Progress. 60 days. The earliest of the large-podded dwarf Peas. The deep green pods are 4 inches long, broad, and pointed. Each pod contains 8 dark green, luscious Peas. Vines 16 to 18 inches in height and very productive. Splendid for home garden and shipping. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

413 Laxtonian. 62 days. An exceptionally choice variety, most prolific and attractive. The vines grow 15 to 18 inches tall and produce straight, pointed deep green pods 4½ inches long. Each pod contains 6 to 8 large, sweet, luscious, deep green Peas. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

405 Thomas Laxton. 57 days. Has no superior as an early Pea. The strong vines grow 2½ to 3 feet tall. They bear a surprising number of dark green pods, blunt-ended, 4 to 4½ inches long and filled with large, tender Peas, retaining their pleasing flavor until they begin to harden. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

418 Little Marvel. 62 days. Extensively grown in Florida for early shipping. The tall, vigorous dark green vines bear pods 3 inches in length, nearly round, square-ended, and well filled with 6 to 7 large, deep green Peas. A sure cropper of unsurpassed sweetness. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

406 Gradus or Prosperity. 58 days. Earliness and high quality are combined in this splendid Pea. The vines are 3 to 3½ feet tall and bear pods 4 inches long, filled with 8 to 10 large, sweet, delicious Peas. The pods are dark green, nearly straight, and pointed at the tip. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

TALL-GROWING PEAS

These Peas are unequalled for their long season, heavy yield, and high quality. Seed should be amply spaced when planted, and vines given support.

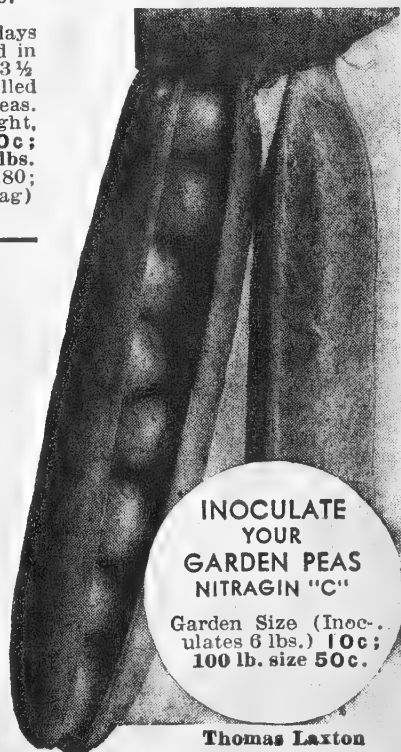

419 Improved Telephone.

Dark-podded. 72 days. The vines grow 4 to 4½ feet tall. Pods are 4½ to 5 inches long, broad, plump, dark green, pointed, and straight, contain 8 large, bright green Peas of superb quality. Very productive. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

423 White Marrowfat.

81 days. The light green coarse vines grow 5 feet tall. Pods are plump, blunt, straight, light green, and about 3 inches long. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.40.** Not prepaid: 15 lbs. (pk.) \$2.75; 60 lbs. (bus.) \$9.50; 120 lbs. (bag) \$18.00.

410 Rogers Icer No. 95. 74 days. A new late maturing Pea. The vines are coarse, dark green in color and usually attain a height of 24 inches. The attractive dark green, pointed pods are 4½ to 5 inches long and well filled with large peas of fine flavor. Highly wilt-resistant and a very productive variety for those wanting a large podded sweet pea. Fine for commercial growers as well as home gardeners. **Large pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50.** Not prepaid: 14 lbs. (pk.) \$2.80; 56 lbs. (bus.) \$10.00; 112 lbs. (bag) \$19.00.

Thomas Laxton

Set **ONION** SEED ★ Plants

Onions have a prominent place in the vegetable gardens of America. They are highly prized for their tonic qualities. Raw or cooked, alone or in combination with other vegetables, they are wholesome and nutritious. As an appetizer, they

Culture. A good, well-drained soil, reasonably fertile, will give the best crops. September and October are the principal planting months. Sow in seed-beds and when 5 to 7 inches high transplant in rows 12 to 15 inches apart and 3 to 4 inches apart in the row. In some sections the seed is sown directly in the field in rows 18 to 20 inches apart. Cultivate every 10 days to keep down weeds and conserve soil-moisture.

have no equal, and many housewives' cherished recipes would be incomplete without them. Our strains are grown from mature Onions which have been carefully inspected as to type and excel in productiveness and uniform quality.

Onions should be pulled when the tops in the field have fallen over and dried considerably. Allow them to dry on the ground and then place in shallow racks with slat bottoms which permit free circulation of air. When fully dried the tops may be wrung off and the Onions graded. Normal yields between 100 and 400 bushels per acre. One ounce plants 200 feet of row; 3 to 4 pounds, an acre.

RED CREOLE

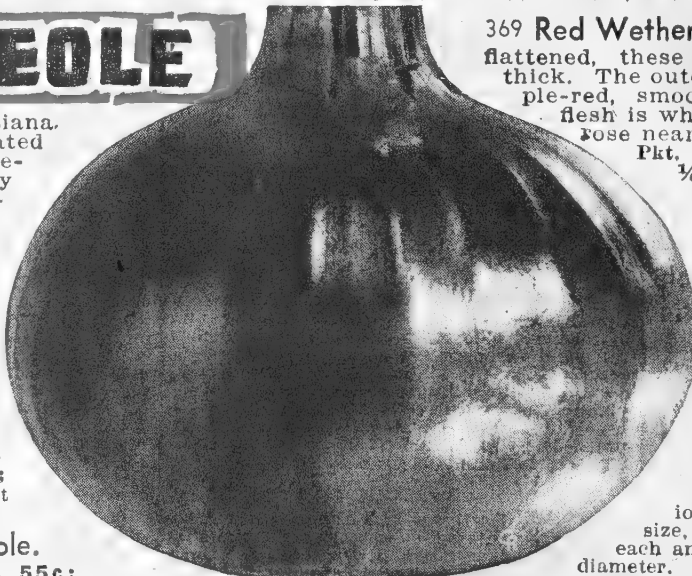

371 Originated in Louisiana. Extensively cultivated throughout the South because of its productivity and long-keeping qualities. Produces large, solid, semi-globe Onions of reddish color. Flesh is very solid and fine-grained. Flavor is rather strong. For home-garden use it is unexcelled and can be stored for months without showing signs of rotting. One of the most important Crops in Louisiana. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.50; lb. \$5.50; 5 lbs. \$26.00. Not prepaid: 10 lbs. \$50.00.

376 Certified Red Creole.

Pkt. 10c; ½ oz. 35c; oz. 55c; ¼ lb. \$2.00; lb. \$7.00; 5 lbs. \$34.00.

363 Early Grano. (Babosa). A new early-maturing Onion of large size, top-shaped slightly tapering toward the root, and with dark straw-colored skin. The pure white flesh is exceedingly mild in flavor with a very sweet taste. More resistant to premature seeding than other varieties. Particularly valuable for fall seeding. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$2.25; lb. \$8.00.

368 Australian Brown. An excellent keeping variety of medium size, varying slightly in color. The Onions are flattened and mature rather late. The flesh is crisp, mild, solid, and juicy. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$2.00; lb. \$7.50.

Red Creole Onion

373 Riverside Sweet Spanish.

Rapidly becoming popular on account of its phenomenal size, handsome appearance, and excellent flavor. The glossy, light yellow, globe-shaped bulbs often weigh 2 pounds each and measure 4 to 6½ inches in diameter. Ripens evenly and ships as well as any of the better shipping sorts. The sparkling white flesh is mild, and very sweet. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$2.25; lb. \$8.50.

375 White Sweet Spanish.

A selection of the famous Riverside Sweet Spanish. In flavor, uniformity, and mildness it equals its predecessor, and the pure white skin improves its market appearance. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$2.25; lb. \$8.50.

369 Red Wethersfield. Though well flattened, these large Onions are quite thick. The outer skin is a deep, rich purple-red, smooth and glossy, and the flesh is white, lightly tinged pinkish rose near the skin. Solid and mild. Pkt. 10c; ½ oz. 35c; oz. 55c; ¼ lb. \$1.75; lb. \$6.50; 5 lbs. \$30.00.

372 Silverskin (White Portugal).

A good-sized, early ripening Onion with mild, sweet flesh. The thin skin is clear silvery white. Large, flat, and firm. Especially fine-grained. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$2.25; lb. \$8.00.

364 Prizetaker.

One of the largest and most handsome Onions. They grow to extra large size, weighing as much as 4 pounds each and often measuring 4 inches in diameter. The thin skin is a beautiful golden brown and the flesh is pure white, solid, crisp, juicy, and mild. Uniform in size, shape and color. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$2.00; lb. \$7.50; 5 lbs. \$35.00. Not prepaid: 10 lbs. \$65.00.

SHALLOTS

White Multiplying Green Onions

First plantings can be made during late August and early September for the fall crop. Separate the bulbets and set 6 to 8 inches apart on rows 3½ to 6 feet apart. The depth of planting should be 2 to 2½ inches. Shallots grow and multiply rapidly and they can be divided and set out again during the winter months. Lb. 50c; 3 lbs. \$1.35. Write for market prices on larger quantities.

ONION SETS

One pound will plant 50 feet of row; 3 to 10 bushel, an acre.

Yellow Bermuda. Widely grown Bermuda Onion, with straw-yellow skin and pure white flesh. Lb. 40c; 3 lbs. \$1.10. Write for prices on larger quantities when ready to buy.

Crystal White Wax. The most attractive Onion in the world. Lb. 40c; 3 lbs. \$1.10. Write for prices on larger quantities when ready to buy.

Yellow Sets. Mature handsome, large Onions with bright, golden skin. Lb. 40c; 3 lbs. \$1.10. Write for prices on larger quantities when ready to buy.

Red Sets. Will produce nice globe-shaped red Onions. Lb. 40c; 3 lbs. \$1.10. Write for prices on larger quantities when ready to buy.

White Sets. They are round, firmly ripened, and have a thin neck. Lb. 40c; 3 lbs. \$1.10. Write for prices on larger quantities when ready to buy.

REUTER SEED CO., Inc., New Orleans

Garlic is the most pungent in taste of all the Onion family. The root or bulb is composed of many small bulbs called "cloves," which are best planted during October and November in rows 12 to 20 inches apart and 4 to 6 inches apart in the row. One pound plants 200 feet of row. Lb. 50c; 3 lbs. \$1.35. Write for market prices on larger quantities.

DELICIOUSLY SWEET, LARGE BERMUDA ONIONS *are Easily Grown from Seed!*

These are the earliest, mildest flavored, and most attractive Onions in the world! They are so mild that they may be eaten raw like an apple. They appeal to millions of people who dislike the strong flavor of most Onions.

365 Yellow Bermuda Onion

The most important and most extensively grown of the Bermudas. This variety has made Texas famous as an Onion-growing State. A very early, medium-sized, flat Onion with light straw-yellow skin and pure white flesh. The delicious flavor is mild and sweet. The high-quality Bermuda Onions produced on thousands of acres in South Texas from Reuter's celebrated, genuine, imported Teneriffe-grown seed bring the top market prices and often a premium above market quotations. **Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.75; lb. \$6.00; 5 lbs. \$29.00.** Not prepaid: 10 lbs. \$56.00.

366 Crystal White Wax Bermuda

A pure white-skinned variety of beautiful, wax-like appearance which has all the other desired characteristics of the Yellow Bermuda. It is extremely early and exceptionally mild. In the large markets, our Crystal White Wax usually brings a premium. Every home-garden should contain a few rows of this wonderful Onion. It has no superior and is easily and quickly grown from seed, sets, or plants. **Pkt. 10c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.85; lb. \$6.50; 5 lbs. \$31.00.** Not prepaid: 10 lbs. \$60.00.

BERMUDA Onion Plants

Sturdy, healthy, State Certified plants ready to ship about October 1. Grow Onions this easy way. You can get a much earlier crop of fully matured Onions, or very early green Onions for pulling. **Yellow Bermuda and Crystal White Wax only!**

Postpaid Prices: 300 for 80c; 500 for \$1.25; 1,000 or more, \$2.15 per 1,000. No order for less than 300 plants of the same variety.

Express Collect Prices: 6,000 plants (1 crate shipping weight 35 lbs.), \$7.25. Express charges average about \$1.50 per crate. Plants shipped direct from our grower's station—separate from seed orders. **No plants shipped C. O. D.**

NOTE: Please order early. Due to existing conditions we cannot guarantee delivery on any specific date. It may take from two to four weeks before plants can be shipped.

PARSNIP

392 Hollow Crown. 85 days. The roots are about 12 inches long, with smooth, white skin, tapering evenly from a heavy shoulder down to a small root. Flesh tender and sweet. Sow seeds commencing in September in rows 2 feet apart, thin to 6 inches apart in the row. **Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.00; 5 lbs. \$9.00.**

MARKET GARDENERS AND TRUCKERS

The South provides more than 60% of the fresh vegetables consumed in this country, and we are very proud of the fact, voiced by hundreds of the largest commercial vegetable growers and shippers, that Reuter's Seeds have contributed much to the improvement and present outstanding accomplishment of profitable large-scale vegetable production in the South. We know that there are no better seeds at any price, and the bulk of vegetable seeds offered for Southern planting will not approach Reuter's Seeds in quality and adaptability.

PARSLEY

Culture. Sow during the summer and fall in rows 12 inches apart. Thin to 4 inches apart. One-ounce will sow 150 feet of row; 5 to 6 pounds an acre.

381 Double Curled. A dwarf-growing variety with deeply cut and finely curled, vivid green leaves. Excellent for garnishing dishes and for decorative purposes.

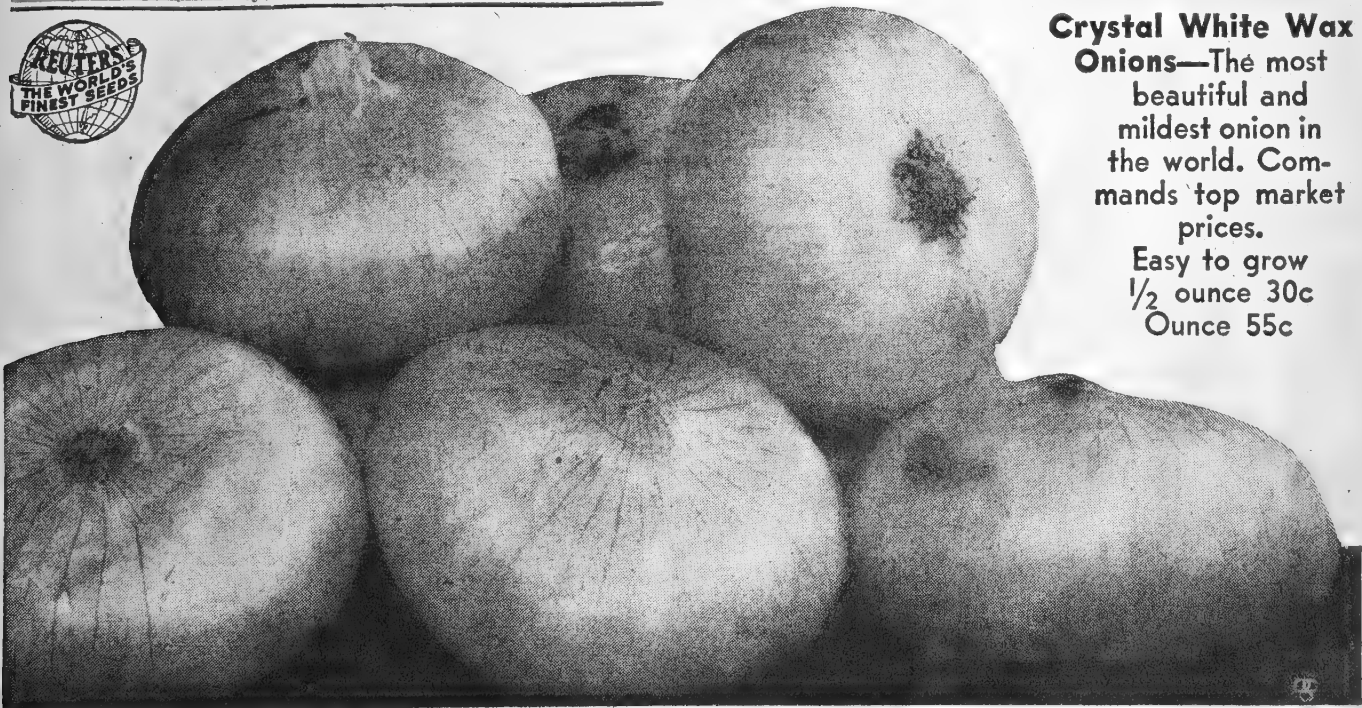

382 Plain-leaved. The leaves are flat, very dark green, deeply cut, but not curled. Withstands heat better than the Curled.

383 Hamburg or Rooted. Forms thick, fleshy, edible roots that are used extensively for flavoring.

Prices on the above: Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25; 5 lbs. \$5.50. Not prepaid: 10 lbs. \$10.00; 25 lbs. \$22.50.

Crystal White Wax Onions—The most beautiful and mildest onion in the world. Commands top market prices.

½ ounce 30c
Ounce 55c

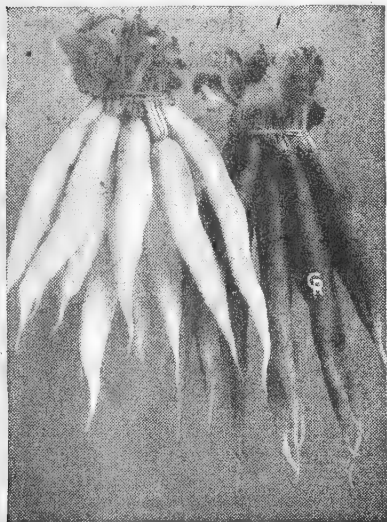

CRISP**Spicy****RADISHES ARE APPETIZING!**

Scarlet Globe Radishes

461 Scarlet Turnip White-tipped.

25 days. This Radish is a table delicacy, crisp, tender, and sweet. A very deep scarlet with a distinct snow-white tip covering about one-third of the lower part. Medium in size, nearly round, with small tap-root. We offer a high-class, refined strain. Extensively used by truckers and in home-gardens. Should be pulled when 1 to 1½ inches in diameter. Ready in 25 days from time of sowing the seed. If you wish to have the finest and earliest round, white-tipped Radishes sow this splendid strain. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

475 Mixed Radishes. Reuter's mixture of Radishes are early, medium and late round, long, white and black, giving you a succession of crisp, tender Radishes throughout the entire season. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c; 5 lbs. \$4.00.

White Vienna

Cincinnati Market

Radishes are a table delicacy of real worth and are also valuable for garnishing. It is the quickest crop to be enjoyed from the garden. Our strains are grown with the greatest care, involving greatly increased cost.

Culture. Radishes thrive best in rich, well-prepared soil. Plant seed about ½ inch deep, in rows 12 to 18 inches apart, and thin to 1 to 2 inches apart. The winter varieties should stand 2 to 4 inches apart. Also sown broadcast. Radishes must grow quickly to be good. Sow every two weeks for a continuous supply. One ounce will plant 100 feet of row; 8 to 10 pounds, an acre.

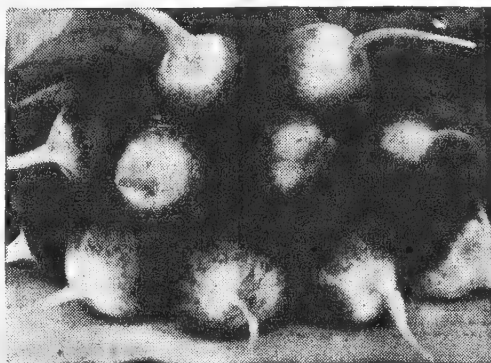

469 Scarlet Globe. 23 days. A pedigreed stock grown from selected transplanted roots. An outstanding strain, surprisingly uniform, color rich, brightest scarlet, shape perfect, well-rounded bottom, with thread-like tap-roots. Tops are medium size and uniform, just large enough for bunching. Flesh is pure white, crisp, and of finest flavor. It remains very long in prime condition. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00; 25 lbs. \$18.75.

462 Long Brightest Scarlet. 26 days. The earliest of the long red varieties, and excellent for home- and market-garden use. Flesh is icy white, crisp, and tender until fully grown. The roots are 4 to 4½ inches long, tapering, vivid scarlet with pure white tip. Tops fairly small. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.10; 5 lbs. \$5.00. Not prepaid: 10 lbs. \$9.00.

478 Crimson Giant. 28 days. If you desire a Radish of more than two bites, you will find this to your liking. The crimson roots are large, globular, 1 to 1½ inches in diameter. Flesh is white, crisp, and of splendid quality. It grows quickly and remains tender and of fine flavor to the last. Valuable for home-garden use. The white flesh holds its firmness well. The tops are medium small. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.10; 5 lbs. \$5.00. Not prepaid: 10 lbs. \$9.00.

White Icicle

Scarlet Turnip White-Tipped Radishes

470 French Breakfast. 25 days. A quick-growing, small, olive-shaped, bright rose-scarlet variety with clear white tip at bottom. Flesh is solid, sweet, crisp, and tender. Fine for the home-garden. Becomes pithy unless pulled at first maturity. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. \$4.50.

463 Cincinnati Market. 28 days. Popular home- and market-garden Radish. Tops short and small. The attractive roots are 6 to 7 inches long, cylindrical, tapered near tip; deep red with purplish tinge. The flesh is white, crisp, mild and tender. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00.

468 White Vienna or Lady Finger. 29 days. Similar to White Icicle, but more slender. Roots are 5½ to 6½ inches long, ½ inch thick, sleek, tapering; skin white with tinge of green on the sloping shoulder. Flesh white, crisp, and brittle. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.10; 5 lbs. \$5.00.

467 White Icicle. 27 days. Clear white roots which grow to a length of 6 inches, slender and tapering at the tip, brittle as ice and of mild, inviting flavor. A fine variety for both market and home gardeners who want an early, long white Radish. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.10; 5 lbs. \$5.00. Not prepaid: 10 lbs. \$9.00.

471 Improved Chartier.

35 days. A very attractive sort with roots 7 to 8 inches long and 1 inch thick. Bright rose-color on the upper part, shading to white at the tip. Flesh is white and crisp. Later than other long red sorts. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid: 10 lbs. \$8.00.

WINTER VARIETIES

472 Long Black Spanish. 55 days. A good keeper. Roots are cylindrical, slightly tapered at tip, 7 to 10 inches long, 2 to 2½ inches in diameter; skin black and somewhat roughened; flesh white, firm, crisp, and pungent.

477 Chinese Rose Winter (Scarlet China). 50 days. Roots grow 6 to 7 inches long, 1½ to 2 inches in diameter at shoulder, and slightly broadened at the lower end; blunt, smooth, bright rose-red in color. The flesh is white, very firm, and pungent.

465 Chinese White Winter (Celestial). 55 days. A clear white variety of symmetrical shape and large size. The length is from 7 to 9 inches, and the width 2½ to 3 inches. The root is slightly oval with blunt base and comparatively small tap-root. It is clear white through and not so pungent as other winter sorts.

Prices for the above: Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.15; 5 lbs. \$5.00.

483 ROQUETTE

When young, the leaves of this hardy annual are used like mustard for salads. They resemble those of the radish but are smoother in texture. The young leaves are ready for use in about six weeks, when the plants are 8 to 10 inches high. Sow in shallow rows, about 16 inches apart. Give plenty of water. Pkt. 10c; oz. 50c; ¼ lb. \$1.65; lb. \$5.50.

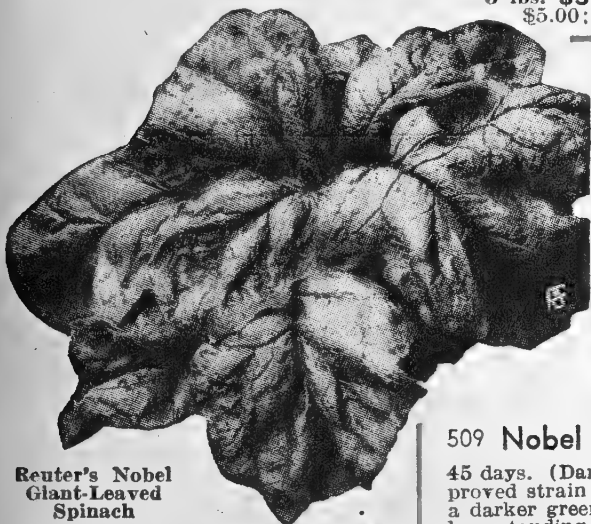

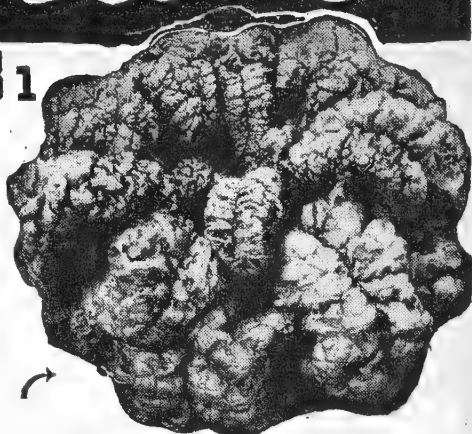

Fresh Spinach

CONTAINS MORE VITAMIN B₁

Spinach is one of the most important sources of vitamins. It is included in all healthful diets, and properly cooked and prepared for table, is a most palatable dish.

Culture. Commence sowing in September in rows 16 to 20 inches apart, 1 inch deep. Thin to 6 to 8 inches apart in the rows. Spinach develops best grown in rich soil during cool weather. One ounce will sow 100 feet of row; 8 to 10 pounds an acre.

511 Old Dominion. 40 days. A sensational new Savoy-leaved Spinach of the Bloomsdale type. The compact dark bluish green growth is heavily crumpled except at the very leaf-tips. It is blight-resistant and very slow in running to seed. Remains in good condition as long as any late-seeding Bloomsdale. Withstands heat and cold as well as any variety. Highly recommended to commercial growers. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. \$3.25. Not prepaid: 10 lbs. \$5.00; 100 lbs. \$40.00.

Reuter's Nobel
Giant-Leaved
Spinach

507 Long-Standing Bloomsdale. 45 days. An attractive Savoy type with very crumpled, rounded, large, thick upright leaves of a lustrous green color. Remains a long time in condition. A great favorite for home and market gardeners because of the uniform handsome plants and remarkable long standing quality. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. \$3.25. Not prepaid: 10 lbs. \$5.00; 100 lbs. \$40.00.

Fresh
SPINACH
from Your
Own Garden
Tastes Better!

509 Nobel Giant-Leaved. 45 days. (Dark Green). Our improved strain of this type enjoys a darker green color and is more long-standing. The leaves are large, broad, tender, of delicious flavor, and not crumpled or savoyed. Canners should plant this special stock because of its enormous yield of finest quality, and the smoothness of the leaves makes washing a simple operation. A fine variety for both market gardeners and home use. Slow to go to seed. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 80c; 5 lbs. \$3.50. Not prepaid: 10 lbs. \$5.50; 100 lbs. \$45.00.

502 Bloomsdale Savoy. 40 days. **Extra Dark Green Strain.** A new beautiful, better and darker strain. Its glossy green color gives the plants a fresh appearance for a longer time after being cut, and it is quite early. The leaves are large, fleshy and deeply crumpled. The plants are of upright growth. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. \$3.25. Not prepaid: 10 lbs. \$5.00; 100 lbs. \$40.00.

503 Flanders. 43 days. An early and vigorous growing sort. Very popular in Louisiana for the home and market garden. Fine for canning. Leaves are deep green, broad and thick; inclined to be flat and fairly smooth. Our strain is excellent. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. \$3.25. Not prepaid: 10 lbs. \$5.00; 100 lbs. \$40.00.

504 Viroflay. 45 days. A large, vigorous-growing variety, with broad, thick, long, pointed, smooth leaves of a deep green color. Very hardy, withstanding considerable cold winter weather. Also resists heat during the late spring. Pkt. (1 oz.) 10c; ¼ lb. 25c; 1 lb. 75c; 5 lbs. \$3.25. Not prepaid: 10 lbs. \$5.00; 100 lbs. \$40.00.

505 New Zealand. 70 days. The "cut and come again" Spinach. Thrives during hot, dry weather and yields continuously from late spring to late fall. The large, spreading plants produce great quantities of small, thick pointed, deep green leaves of a delightful flavor. Seeds start growth quicker if soaked in warm water 24 hours. Pkt. 10c; oz. 20c; ¼ lb. 65c; 1 lb. \$2.00; 5 lbs. \$9.00. Not prepaid: 10 lbs. \$17.00.

STRAWBERRY PLANTS—Disease-Free Plants!

Aroma. Very productive. Berries are bright red, large and fine. Ripens 10 days later than Klondyke.

Blakemore. A great shipper. It's extra-early, a heavy producer, berries medium to large, bright red color. Excellent for canning and preserving.

Klondyke. The greatest shipping variety in the South. It ripens early and a good all 'round berry.

Missionary. Well adapted to the Gulf Coast from Florida to Texas. Berries are of good quality, deep rich red, an excellent shipper.

4 Varieties listed above	50 Plants	100 Plants	500 Plants	1000 Plants
Prepaid by Express or Postpaid	\$0.90	\$1.50	\$5.50	\$10.00

Dorsett. The large, red berries are sweet and very tasty. Ripens later than Klondyke. Fine for the upper South.

Premier. Medium early, especially adapted to the upper South. Excellent shipper, fruits of good size and quality. Good soil is required for this berry.

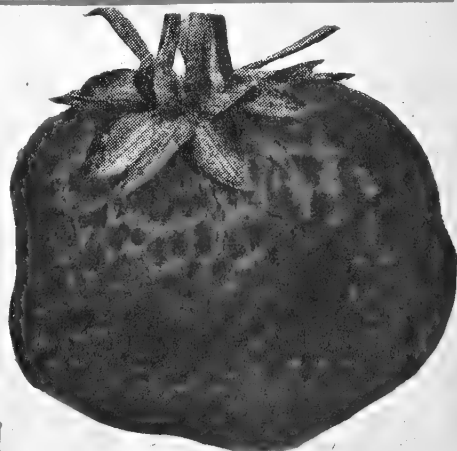

Gandy. A late berry. Produces large, firm and attractive fruit. Does best on rather low, moist ground.

Dunlap. Midseason. The berry is dark red with glossy finish. The meat is a bright red all through and exceedingly juicy.

4 Varieties listed above	50 Plants	100 Plants	500 Plants	1000 Plants
Prepaid by Express or Postpaid	\$1.00	\$1.65	\$6.00	\$11.00

Progressive Everbearing. The best "Everbearing Strawberry" for the South. Berries deep crimson, fine quality. Excellent for home use.

Progressive Everbearing	50 Plants	100 Plants	500 Plants	1000 Plants
Prepaid by Express or Postpaid	\$1.25	\$2.10	\$7.50	\$14.00

All plants are guaranteed to reach you in good condition. Shipped direct from the foremost nursery in the South commencing about September 15, weather permitting.

Order early! Due to existing conditions it may take from two to four weeks before plants can be shipped. Please do not ask for specific shipping date.

It's Turnip Planting Time

Culture. Commence sowing seed during July for a fall and winter crop, in rows 18 inches apart, covering seed $\frac{1}{2}$ inch deep, pressing the soil down firmly and smoothly. Plants should be thinned to 4 to 6 inches apart. Also sown broadcast. For best quality, grow Turnips rapidly in new ground and cultivate frequently. One ounce will sow 200 feet of row; 2 pounds an acre, or 4 to 5 pounds, broadcast.

Shogoin Turnip

588 Long White Cowhorn. 70 days. Roots often measure 12 to 15 inches in length and 3 inches in diameter. They are red above the ground and white below. Tops large, up-standing, with deeply cut leaves. Flesh tender and of mild flavor when 3 to 4 inches long. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

579 Early Purple-Top. 45 days. Strap-leaved. Grows rapidly and produces a good crop of medium-sized, flat roots, purplish red on top, milky white in lower portion. Leaves are few and upright in growth. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

580 Early White Flat Dutch. 45 days. Strap-leaved. An early white Turnip with pure white flat roots; flesh is fine-grained and mild-flavored. Tops small, erect, and compact. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

584 Seven-Top. For Turnip "greens." A very hardy sort, grown principally for "greens," and also for forage. The tops are ready for use in 30 days. Roots are tough and undesirable for food. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c; 5 lbs. \$2.75. Not prepaid; 10 lbs. \$4.50; 25 lbs. \$10.00.

585 White Egg. 55 days. An attractive egg-shaped Turnip with a beautiful thin white skin and fine-grained, tender, sweet white flesh. Very attractive when bunched. Tops erect, fairly compact and cut-leaved. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

586 Amber Globe. 75 days. Chiefly grown for stock. Tops green; leaves cut. Roots large, globular, smooth, yellow, tinged with green at top; flesh pale yellowish white, fine-grained, sweet and tender. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

582 Snow-White Globe. 40 days. Strap-leaved. The large, white, globe-shaped roots are solid and smooth. Flesh is pure white, firm, crisp, and of excellent table quality when young. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

590 Reuter's Mixed Turnips. A wonderful mixture of all varieties of Turnips and Rutabagas offered on this page, furnishing a wide assortment from one sowing, root varieties as well as Turnip "greens." Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs. \$3.75. Not prepaid; 10 lbs. \$6.50.

592 Reuter's Shogoin. A new foliage Turnip that has proved itself superior to most other varieties. It is the best combination variety for both bulbous roots and tops for "greens" that we have yet seen. Furthermore, it is louse-resistant and it holds its heavy crop of leaves up off the ground. Resists heat, sun, dry weather, and insect attacks. Quickly produces an enormous yield of upright-growing, succulent foliage, usually 2 feet tall, which is crisp, tender, and of superb mild flavor. The "greens" are ready for use in 25 days. Roots are large, pure white, semi-globular, and of a most excellent quality for table use. It's the greatest dual-purpose Turnip ever introduced. Surely include it in your order. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

RUTABAGA

Rutabagas require a longer growing season than turnips. Seed may be sown at the same time you plant turnips, in rows $2\frac{1}{2}$ to 3 feet apart. Culture is practically the same as for turnips, except the plants should be thinned to 5 to 10 inches apart in the row. One ounce will sow 200 feet of row; 1 to 2 pounds per acre in drills; 3 to 4 pounds per acre broadcast.

591 American Purple-Top.

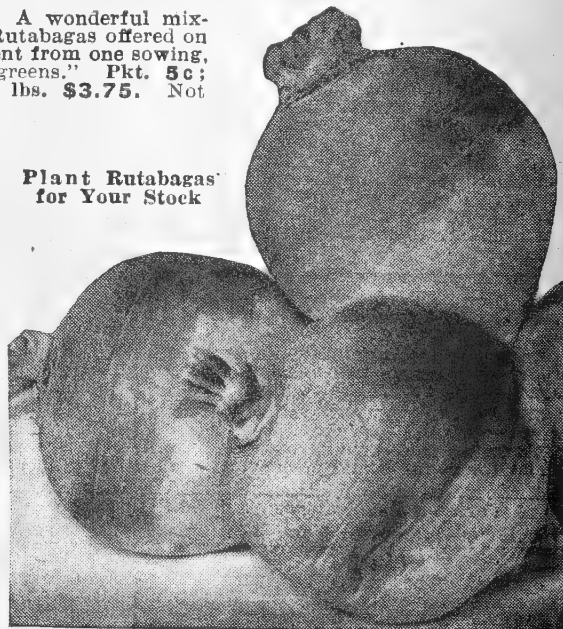

88 days. Our strain is noted for its heavy yielding quality. Produces large, smooth, globe-shaped roots with rich purplish coloring in the upper portion and yellow below. Flesh rich yellow, and sweet. Best for table and stock-feeding. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25; 5 lbs. \$5.75. Not prepaid; 10 lbs. \$10.50.

578 Purple-Top White Globe.

50 days. An all-purpose variety extensively used for home- and market-gardens and for shipping. Our celebrated strain produces almost perfect globe-shaped roots, purplish red on the upper part and creamy white at the base. Flesh is white, firm, crisp, and mild-flavored. The broad green tops are of upright growth, medium large, and strap-leaved. Our stock is famous for its uniformity and productivity. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.50. Not prepaid; 10 lbs. \$8.00.

Plant Rutabagas for Your Stock

American Purple-Top Rutabaga

Giant 7 Ounce TURNIP COLLECTION

THE WORLD'S FINEST Flower Seeds

ALYSSUM

Splendid little annual for edging and bedding. Starts to bloom a few weeks after planting. Sow July-November.

1123 Little Gem. Dwarf, compact grower, covered with small white flowers. Height 4 inches. Pkt. 10c; ½ oz. 40c; oz. 75c.

1124 Violet Queen. Dwarf compact grower with bright violet blooms. Pkt. 10c; ¼ oz. 45c; ½ oz. 80c.

1125 Lilac Queen. Similar to Little Gem, but carries an abundance of delicate, lilac-colored blooms. Height 6 inches. Pkt. 10c; ½ oz. 45c; oz. 80c.

1128 Saxatile Compactum. (Basket of Gold.) Perennials with golden yellow blooms. Height 9 inches. Pkt. 10c; ¼ oz. 25c.

ANCHUSA

The blooms are produced in sprays and resemble those of the forget-me-not. Prefer partial shade. Sow August-November.

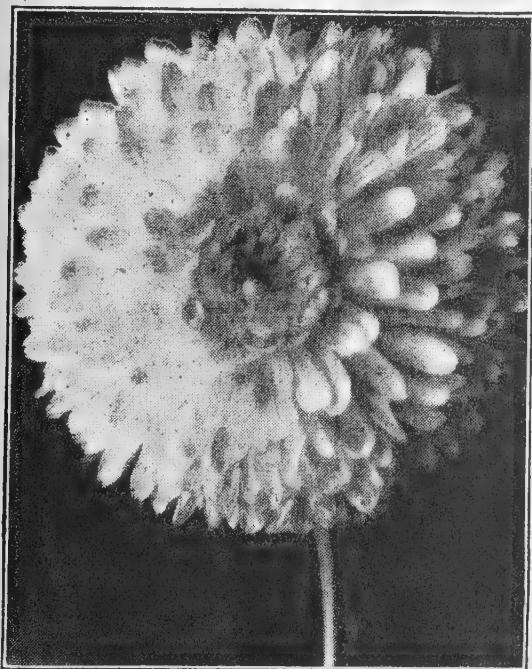

1143 Blue Bird. Indigo-blue. Annual. Height 1½ feet. Pkt. 10c; ½ oz. 40c.

1144 Italica. Gentian-blue. Perennial. Height 4 feet. Pkt. 10c; ½ oz. 40c.

ARCTOTIS

Beautiful sun-loving bush. Daisies with large, showy, marguerite-like blossoms. Sow July-October.

1175 Grandis. (Blue-eyed African Daisy.) White with steel-blue center and lilac reverse. Pkt. 10c; ¼ oz. 35c.

Calendula Chrysanthemum

AQUILEGIA (Columbine)

1180 Long-spurred Mixed. Graceful perennial with odd-shaped flowers in pastel shades. Sow during October-November. Pkt. 25c; ¼ oz. 65c.

CANDYTUFTS

These delightful annuals may be grown with splendid success in fall. Highly prized for cutting. Sow September-November. Height 1 foot.

1286 Mixed Colors. Pkt. 10c; ½ oz. 25c; oz. 40c.

1284 Crimson 1287 Lavender

1288 Flesh-Pink 1285 White

Each: Pkt. 10c; ½ oz. 25c; oz. 40c.

1289 Hyacinth-flowered White. Immense pure white spikes. Pkt. 10c; ½ oz. 45c; oz. 85c.

ANTIRRHINUM Snapdragon

For exquisite beauty, few flowers equal the modern Snapdragons. They make glorious massed beds and borders, and are extremely well adapted for cutting. Height 2 to 3 feet.

1259 Sensation (Campfire). Enormous, double, flat, brilliant orange flowers with scarlet sheen. Pkt. 10c; ½ oz. 50c; oz. 90c.

Our Flower Seeds are selected especially for the South, and we offer only the best strains in each respective class.

Reuter's Seeds Assure You of

COSMOS

Delightful easily-grown annuals with single daisy-like flowers on long stems. Sow August-September.

Early Mammoth-Flowered
1408 White 1410 Pink
1412 Crimson 1415 Mixture
Each: Pkt. 10c; ½ oz. 25c; oz. 40c.
1423 Sensation Dazzler. Immense velvety maroon. Pkt. 15c.
1420 Sensation Mixed. New early Cosmos with giant blooms 4 to 5 inches across. Pkt. 10c; ½ oz. 30c.

CYNOGLOSSUM

Chinese Forget-Me-Not
Delightful hardy annual with small Forget-Me-Not like blooms. Sow September-November.
1430 Blue. Rich turquoise-blue. Pkt. 10c; ½ oz. 25c; oz. 40c.
1433 Firmament. Dwarf, bushy grower with rich blue flowers. Pkt. 10c.

DELPHINIUM

(Perennial Larkspur)

Delphiniums produce tall, stately plants with immense, massive flower-spikes in indescribable rich and varied shades of blue. Magnificent for enriching large borders and highly esteemed as a cut-flower. Delights in a rich well-cultivated soil. Height 4 feet. Sow early in protected seed-beds and transplant to 2 feet apart.

1475 Reuter's Hybrids Mixed. Excellent strain. Pkt. 15c; ¼ oz. 85c.

1477 Wrexham Hybrids. Remarkable new English Hybrids, with individual blooms, over 2 inches in diameter produced on gigantic spikes. Very complete color range. Pkt. 40c.

DIANTHUS or PINKS

Unsurpassed for striking colors and profuse blooming. Do best in a sunny location. Sow July-November. Height 1 foot.

1480 **Chinensis. Mixed** (Double Chinese Pinks). Pkt. 10c; ½ oz. 35c; oz. 65c.
1484 **Heddewigi Mixture** (Single Japanese Pinks). Pkt. 10c; ½ oz. 35c; oz. 65c.

ESCHSCHOLTZIA

(California Poppy)

Showy little annual admired for its finely cut, bluish green foliage and bright-colored, bell-shaped flowers. Sow during October-November. Height 1 foot.

1505 Hybrids Mixed. Contains wonderful new shades. Pkt. 10c; ½ oz. 25c; oz. 40c.
1508 **Aurantiaca**. Rich orange. Pkt. 10c; oz. 20c.

Chinese Pink

FORGET-ME-NOT

1516 Popular little plant producing blue flowers in sprays. Sow September-November. Pkt. 15c; ¼ oz. 75c.

SHASTA DAISY

Showy perennials with large, pure white marguerite-like flowers on long stems. Sow September-November. Height 2½ feet.

1470 Alaska. Gigantic pure white. Pkt. 10c; ¼ oz. 50c.

GYPSOPHILA

(Baby's Breath)

Admired for their myriads of small, dainty, star-shaped blooms. Sow September-November. Height. 1½ feet.

1587 White Pkt. 10c; ½ oz. 20c; oz. 35c.
1590 Pink 1591 Crimson
Each: Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

Nasturtium—Golden Globe

DOUBLE NASTURTIUMS

Giant, double, sweet-scented flowers of gorgeous new colors. Excellent for cutting. Sow August-October.

1763 **Scarlet Gleam**. Dazzling fiery orange-scarlet. Pkt. 10c; oz. 35c.
1755 **Orange Gleam**. Deep glowing golden-orange. Pkt. 10c; oz. 35c.
1762 **Golden Gleam**. Golden yellow. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.
1764 **Gleam Hybrids**. Wonderful double-flowering blend. Pkt. 10c; oz. 25c; ¼ lb. 90c.

Dwarf Double Gem

Extra dwarf and compact strain.

1761 **Golden Globe**. Yellow. Pkt. 10c oz. 35c.
1758 **Scarlet Gem**. Scarlet. Pkt. 10c; oz. 35c.
1759 **Mixture**. Fine blend. Pkt. 10c; oz. 30c.

Single-Flowering

1760 **Large-flowered Dwarf Mixed**. Compact grower. Large pkt. 5c; oz. 15c; ¼ lb. 55c; lb. \$2.00.
1765 **Large-flowered Tall Mixed**. Trailing. Large pkt. 5c; oz. 15c; ¼ lb. 55c; lb. \$2.00.

LARKSPURS

Larkspurs are wonderful for massing in beds and borders and furnish charming material for cutting. Thrive in any well-drained soil but prefer sunny locations. Sow during October-November. Height 3½ feet.

DOUBLE STOCK-FLOWERING

Popular tall, double-flowering, branching strain.

1676 White 1678-A Carmine
1677 Shell-Pink 1679 Lilac
1678 Bright Rose 1680 Dark Blue
Each: Pkt. 10c; ½ oz. 40c; oz. 75c.
1675 **Mixture**. Very showy blend. Pkt. 10c; ½ oz. 35c; oz. 65c.
1683 **Los Angeles**. Brilliant rose. Pkt. 10c; ½ oz. 40c; oz. 75c.
2775 **Empress Rose**. Rich salmon-pink. A super-branching, extra-strong growing Larkspur. Pkt. 10c; ½ oz. 40c; oz. 75c.

GIANT IMPERIAL

New group of upright, delphinium-like growth.
1681 **White Spire**. A dazzling pure white.
1682 **Exquisite Pink**. Soft pink shaded salmon.
1682A **Exquisite Rose**. Beautiful rose-pink.
2765 **Carmine Spire**. Deep carmine-rose.
2770 **Lilac Spire**. A lovely soft lilac shade.
1673A **Blue Spire**. Intense deep oxford-blue.
Each: Pkt. 10c; ¼ oz. 40c; ½ oz. 70c; oz. \$1.25.
2780 **Mixture**. Pkt. 10c; ½ oz. 60c; oz. \$1.10.

GERBERA (Transvaal Daisy)

1539 Hybrids. Dainty plants with marguerite-like flowers in delightful pastel shades. Start seed in flats during September, October and November. Pkt. 35c.

HOLLYHOCK

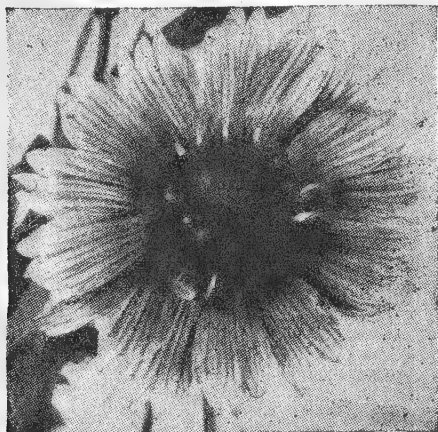

Stately perennial. Its giant stalks are richly set with large, double blooms. Sow October-November.

1630 **Double Mixture**. A showy blend of all colors. Pkt. 10c; ¼ oz. 55c.
1615 White 1618 Pink
1627 Yellow 1624 Scarlet
Each: Pkt. 15c.
1633 **Indian Spring**. Pink to crimson rose. Pkt. 15c.

LUPINS

Decorative annuals and perennials for beds and borders. Sow September-November. Height 1½ to 3 feet.

1698 **Giant King Mixed**. Enormous flower spikes. Annual. Pkt. 10c; ½ oz. 40c; oz. 75c.
1700 **King White**. 1701 **King Blue**. Each: Pkt. 10c; ½ oz. 50c.
1691 **Russell's Mixture**. Sensational new introduction. Pkt. 25c.

Gaillardia Pinwheel

GAILLARDIA

(Blanket Flower)

Attractive plant with large, conspicuous flowers in yellow, orange and reddish shades. Sow September-November. Height 2 feet.

1530 **Giant Single Mixed**. Marguerite-like blooms. Pkt. 10c; ¼ oz. 30c.
1533 **Double Mixed**. Large ball-shaped flowers. Pkt. 10c; ¼ oz. 30c.
1535 **Portola Hybrids**. Immense, single blooms in red shades, with gold tipped petals. Pkt. 10c; ¼ oz. 45c.
1536 **Burgundy**. The large single blooms are of striking coppery scarlet color. Extremely showy. Pkt. 20c.
1532 **Pinwheel**. Annual, with large single flowers, intense wine red at center tinted cherry pink toward outside, with grayish white tips. Pkt. 25c.

a More Beautiful Flower Garden!

MARIGOLDS

Free-flowering annuals for beds and borders. Sow July-October.

1706 All Double Lemon.
1707 All Double Orange.

Each: Pkt. 10c; ¼ oz. 60c.
1708 Tall African Mixed. Pkt. 10c;

½ oz. 40c; oz. 75c.
1713 Mammoth Mum. All Ameri-

Selection 1944. The ball-like sulphur-yellow blooms are made up of many finely cut intertwined and incurved petals. Pkt. 25c.

1716 Yellow Supreme. Rich lemon-yellow. Large fluffy blooms. Pkt. 10c; ½ oz. 45c.

1715 Sunset Giant. New loosely formed full-centered blooms of immense size, ranging in color from deep orange to primrose yellow. Pkt. 10c; ¼ oz. 40c.

1722 Harmony Gold Crest. New free-flowering Harmony-type Marigold with attractive blooms of a golden yellow color. Very dwarf. Pkt. 25c.

1711 French Dwarf, Mixed. "Monarch Strain." 1 foot. Pkt. 10c; ½ oz. 35c; oz. 60c.

1714 French Dwarf Double Harmony. Orange and dark maroon. Pkt. 10c; ½ oz. 40c.

1723 Dwarf Double French Spry. Bright yellow crested center surrounded by rows of mahogany-red guard petals. Pkt. 15c.

1725 French Dwarf Butterball. Lovely butter yellow color, with crested centers. Pkt. 15c; ¼ oz. 40c.

1726 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1727 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1728 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1729 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1730 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1731 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1732 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1733 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1734 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1735 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1736 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1737 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1738 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1739 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1740 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1741 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1742 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1743 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1744 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1745 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1746 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1747 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1748 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1749 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1750 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1751 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1752 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1753 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1754 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1755 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1756 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1757 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1758 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1759 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1760 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1761 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1762 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

1763 French Dwarf Sunkist. The tiny mound like plants are literally covered with rich golden-orange flowers. Sunkist adds a vibrant note of dazzling color to the garden. Pkt. 15c; ¼ oz. 40c.

Pansy Swiss Giant

GIANT Pansies

The exquisite beauty of the Pansies is known to every lover of flowers. Sow August-November.

1792 Giant Maple-Leaf, Mixed. Gorgeous new Pansy with immense blooms in bright colors. Pkt. 50c.

1794 Reuter's Swiss Giant, Mixed. A super-strain of Pansies with gigantic blooms in rich colors. Pkt. 35c; ¼ oz. \$1.15.

1780 Alpenglow. Cardinal red. 1781 Berna. Violet blue.

1782 Rheingold. Yellow. 1783 Swiss White. Pure white.

Each: Pkt. 50c.

Each: Pkt. 50c.

Each: Pkt. 50c.

Each: Pkt. 50c.

Each: Pkt. 50c.

PHLOX

Easily grown brilliant bedding plants. Sow July-October.

Dwarf Phlox

Dwarf, compact type. Height 6 inches. 1842 Mixed Colors. Well blended. Pkt. 25c; ¼ oz. \$1.25.

1844 Star Phlox, Mixed. Distinct type with star shaped flowers. Pkt. 20c; ¼ oz. \$1.00.

Large-Flowering Phlox

Grow about 1 foot high and produce extra-large, perfectly round flowers.

1845 Mixed Colors. A brilliant blend. Pkt. 15c; ¼ oz. 85c.

1848 Pure White 1850 Flesh-Pink
1851 Rose 1852 Chamois-Rose
1856 Scarlet 1857 Crimson
1858 Yellow 1859 Blue

Each: Pkt. 20c; ¼ oz. \$1.00.

1843 Giant Art Shades. Flowers 1½ inches across in a wonderful range of soft colors. Pkt. 20c; ¼ oz. \$1.00.

Each: Pkt. 20c; ¼ oz. \$1.00.

Each: Pkt. 20c; ¼ oz. \$1.00.

Each: Pkt. 20c; ¼ oz. \$1.00.

Each: Pkt. 20c; ¼ oz. \$1.00.

Each: Pkt. 20c; ¼ oz. \$1.00.

Petunia Dwarf Glow

FALL IS THE BEST TIME TO PLANT MANY FLOWERS

TEXAS BLUE BONNET

2060 Belongs to the lupin family. The flower-spikes are covered with attractive deep blue flowers, white keel. Makes showy beds. Sow September-November. Height 1½ feet. Pkt. 10c; ½ oz. 15c; oz. 25c.

SWEET WILLIAM

Prized for its showy clusters of blooms in rich and varied colors. Sow September-November. Height 1½ feet.

2056 Single Mixed. Fringed flowers. Pkt. 10c; ½ oz. 50c; oz. 85c.

2058 Double Mixture. Very showy. Pkt. 10c; ½ oz. 75c.

VERBENAS

Magnificent bedding and border plants. Sow July-October. Height 1 foot.

2070 Reuter's Mammoth Mixture. Pkt. 10c; ¼ oz. 35c; ½ oz. 65c; oz. \$1.20.

2072 White 2073 Pink

2075 Blue 2076 Red

3055 Golden Queen, yellow

Each: Pkt. 10c; ¼ oz. 50c.

Giant-Flowered Verbenas

3054 Spectrum Red. Dazzling bright-red, no eye. Pkt. 20c.

3053 Royal. Blue with creamy eye. Pkt. 20c.

3050 Lavender Glory. Lavender. Pkt. 20c.

3052 Beauty of Oxford Hybrids. Rose-red tinted salmon. Pkt. 20c.

2084 Mixture. Pkt. 15c; ¼ oz. 60c; ½ oz. \$1.10.

ZINNIAS

LILLIPUT

Attractive, round, almost globe-shaped miniature blooms resembling Pompon Dahlias. Height 1½ feet.

2955 White Gem 2147 Scarlet Gem

2956 Rosebud. Rose 2965 Purple Gem

2958 Salmon-Rose 2148 Golden Gem

2957 Lilac Gem

Each: Pkt. 10c; ½ oz. 50c; oz. 85c.

2146 Mixed. Pkt. 10c; ½ oz. 35c; oz. 65c.

Dahlia Zinnia

Sow during July, August and September. Have your beds well drained and rich as Zinnias are great feeders. Thin plants to stand 1 foot apart. Prefer a sunny location and plenty of water especially during blooming season.

GIANT DAHLIA FLOWERED

Largest and finest Zinnias. The magnificent blooms are enormous and borne on strong stems. They resemble the Decorative Dahlia in shape, hence the name.

2125 Canary Bird. Primrose-yellow.

2122 Crimson Monarch. Immense flowers of flaming crimson.

2124 Dream. Distinct deep lavender.

2123 Exquisite. Light rose with Tyrian rose center.

2121 Illumination. Carmine-rose.

2125A Meteor. Glowing deep red.

2930 Old Gold. Striking blend of old gold shades.

2128 Oriole. Orange and gold.

2126 Polar Bear. Large pure white.

2132 Royal Purple. Purple.

2935 Scarlet Flame. Bright scarlet.

2129 Youth. Soft rose self.

Each: Pkt. 10c; ¼ oz. 35c; ½ oz. 60c; oz. \$1.00.

Gold Medal Mixture

2130 A glorious blend of the greatest array of shades and colors. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c; oz. 85c; ¼ lb. \$3.00.

2133 Fantasy. The Chrysanthemum-flowered Zinnia. The medium-sized blooms are composed of shaggy, ray-like petals. Large color range, including lovely pastel shades. Pkt. 10c; ½ oz. 50c; oz. 85c.

2145 Early-flowering Spencer Mixture. Unbeatable mixture of all the finest varieties listed above and many others. Pkt. 10c; oz. 30c; ¼ lb. \$1.00; lb. \$3.25.		

SWEET PEA Dwarf Mixture

2050 Dwarf growers with large, waved flowers on short stems. Very popular bedder blooming profusely for several months. Height 1 ft. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

SPRING FLOWERING

All American Selection. A new strain of Sweet Peas, maturing between the Early or Winter-Flowering and the Spencer or Orchid-Flowered type. It is a taller grower, producing flowers on longer stems than either of the others. More heat-resistant than the early-flowering strain and blooms very profusely.

2000 Rose-Pink. Large wavy rose-pink on white ground.

2004 Blue. Marine-blue.

2008 Lavender. Clear lavender.

2010 White. Pure white.

2005 Mixture. Contains all varieties.

Each of the above: Pkt. 20c; oz. 75c.

GIANT SPENCERS (Orchid-flowered)

Hardy growers with vigorous, branching vines. The large, blossoms have attractive, widespread wings, beautifully waved, and are borne three to four on long stems. Sow during October, November for spring blooming.

GARDEN LILIES

Beautiful and fragrant hardy Lilies for outdoor planting are now available in a wide range of colors and forms. They are generally easy to grow and excellent effects can be gained by planting them in separate borders, in rock gardens, or around informal pools.

Lilium Regale (Royal Lily of China). Blooms freely, producing large, trumpet-shaped, delicately scented white flowers, slightly suffused with pink, with a beautiful shade of canary-yellow at center. Extra large bulbs: Each 30c; 6 for \$1.55; 12 for \$2.90; 100 for \$22.50.

Lilium Candidum (Madonna Lily). Popular old-fashioned Lily with beautiful, delicately fragrant blooms of pure waxy white color, with heavy yellow stamens. Prefer sandy soil and a sunny location. Especially showy planted in clumps in mixed borders. Large bulbs: Each 50c; 6 for \$2.75; 12 for \$5.25.

Lilium Tenuifolium (Coral Lily). Dainty Lily about 1½ feet high, carrying numerous, tiny, waxy blooms of delightful coral-red color. Exceedingly graceful species for well-drained locations and borders. Each 15c; 6 for 75c; 12 for \$1.35; 100 for \$10.00.

ANEMONES

St. Brigid. Lovely spring-flowering plants with large, beautiful semi-double blooms in richest colors. Soak the roots over night in lukewarm water before planting. Prefer partial shade. 6 for 35c; 12 for 60c; 100 for \$4.00.

CROCUS

Earliest of all spring-flowering bulbs. The dainty plants produce showy, cup-shaped flowers in bright colors.

Mixture. 6 for 45c; 12 for 85c; 100 for \$6.00.

FREESIAS

Admired for their delightful spikes of bell-shaped, delicately perfumed flowers. Well adapted for planting in mixed borders and for indoor pot culture. For best results they should be planted in a sandy, well-drained soil.

Purity Superflora. An improved type with immense flowers of the purest white color. 6 for 25c; 12 for 40c; 100 for \$2.75.

Improved Rainbow Mixture. Fine blend in shades of yellow, lavender, pink, and purple. 6 for 30c; 12 for 50c; 100 for \$3.50.

Anemone St. Brigid

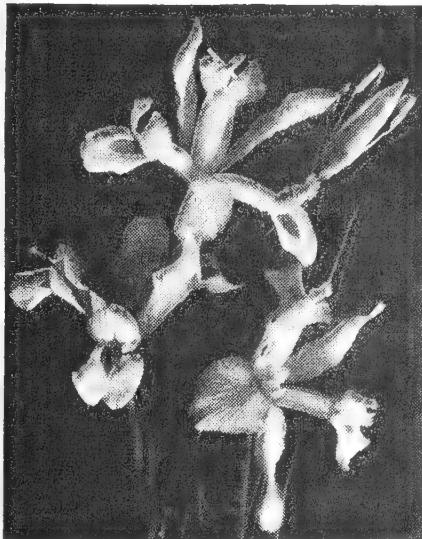

Lilium Philippinense. Fine hardy Lily for your garden. The immense pure white, trumpet-shaped flowers, occasionally tinted reddish purple, are delightfully fragrant. Each 35c; 6 for \$2.00; 12 for \$3.75.

Creole Easter Lilies

This majestic and charming Lily is a product of Louisiana. It is a strong grower, with gigantic, pure white flowers of unusual heavy texture. Bulbs may be planted during the months of October, November, and December. Well-grown plants produce 10 to 15 snow-white flowers to the stalk. For best results protect plants during freezing weather. Good blooming-size bulbs: Each 30c; 6 for \$1.65; 12 for \$3.00; 100 for \$22.00. Mammoth bulbs: Each 50c; 6 for \$2.75; 12 for \$5.00; 100 for \$36.00.

LEUCOJUM

Snowflake Popular small spring flowers. They produce on stems 8 to 10 inches tall clusters of drooping bell-shaped pure white blooms with petals tipped green. Fine for rock-gardens, for clusters in mixed borders and for naturalizing. Grow and multiply rapidly in the South. 3 for 20c; 6 for 35c; 12 for 65c; 100 for \$4.75.

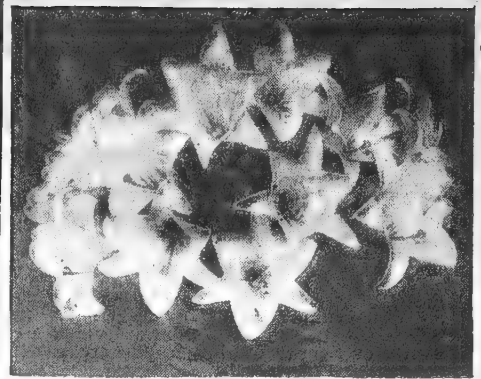

Dutch Iris Yellow Queen

GRAPE HYACINTHS

Heavenly Blue. Charming dwarf-growing plants with Hyacinth-like heads of droopy bell-shaped clear blue flowers. They are extremely easy to grow and are fine for semi-shaded borders and for naturalizing. Will last for years. 6 for 30c; 12 for 50c; 100 for \$3.50.

IXIAS

Attractive and very colorful small plants with clusters of pretty, single star-shaped, two-colored flowers on long, slender stems. Fine for planting in mixed borders. Mixed Colors. 6 for 35c; 12 for 60c; 100 for \$4.00.

Creole Easter Lilies

German Iris Ambassadeur

IRIS

Greatly admired for their delicacy of texture, beauty of form and exquisite colorings.

DUTCH-IRIS

Grow in any well-drained garden soil. Bloom prolifically during the early spring.

Blue Horizon. Very fine light blue.

Indian Chief. Standards violet, tinged bronze, falls bronze.

Yellow Queen. Clear golden yellow color.

Huchtenburg. Large, yellow and white.

Wedgewood. Very large, dark blue with pale blue falls blotched yellow.

White Excelsior. Large uniform pure white.

Each: 3 for 25c; 6 for 40c; 12 for 70c; 100 for \$5.25.

Mixture. Fine blend. 6 for 35c; 12 for 65c; 100 for \$4.50.

GERMAN IRIS

German Iris are sun-lovers and require a well-drained soil for best results.

Ambassadeur. Deep lavender, suffused bronze, falls purplish crimson.

Clara Noyes. Lovely coppery-apricot.

Crystal Beauty. Immense snow white.

Dazzler. Mammoth rich dark red.

Dorothy Dietz. Distinct pale blue, falls rich purple.

Golden Light. Dazzling shade of gold rose.

Indian Chief. Light reddish orange falls.

Pluie D'or. Fine clear yellow.

Rameses. Blend of pink and yellow.

Valor. A blackish blue violet.

All above: Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

NATIVE LOUISIANA IRIS

Grow in full sun or partial shade and succeed in almost any soil kept properly moist.

Blue and Purple

Light Lavender

Russet Red

Lilac

Mixed Colors

Strong roots: Each 15c; 6 for 85c; 12 for \$1.60; 100 for \$12.00.

Narcissus or Daffodils

SPRING GARDEN GLORIES...

Easily grown and excellent for your early spring beds and borders or for naturalizing plots. In describing our Daffodils, the term "perianth" refers to the outer petals or wings of the flowers while "trumpet," "crown," or "cup," applies to the central tube.

SINGLE-FLOWERING DAFFODILS

Barrii Nobility. Large star-shaped flowers with creamy perianth and flat orange-red crown. Showy garden variety. 2 for 30c; 6 for 85c; 12 for \$1.60; 100 for \$12.00.

Dawson City. The large trumpet and flat perfectly overlapping perianths are of a clear golden yellow color. One of the finest among the newer varieties. 2 for 45c; 6 for \$1.25; 12 for \$2.25; 100 for \$17.00.

Diana Kasner. Very lovely and free-flowering Daffodil with pure white perianth and fluted yellow cup with blood-red frill. 2 for 30c; 6 for 80c; 12 for \$1.50; 100 for \$11.00.

John Evelyn. Striking flower composed of broad cream colored perianth. The large open cup has a double frill and the color is an attractive apricot-yellow. 2 for 35c; 6 for \$1.00; 12 for \$1.85; 100 for \$14.00.

Mrs. E. H. Krelage. Referred to as the "White King Alfred." The broad, overlapping perianth and long trumpet are of an even, white color. Remarkably free-flowering and without a doubt the finest of the white trumpets. 2 for 45c; 6 for \$1.25; 12 for \$2.35; 100 for \$18.00.

Emperor. Giant, deep primrose-yellow, with large, rich yellow trumpet. An old favorite, still extremely popular. 2 for 25c; 6 for 60c; 12 for \$1.10; 100 for \$8.00.

Empress. An exceedingly showy variety similar to Emperor in size and shape, but the perianth is white and the trumpet a rich chrome-yellow. 2 for 25c; 6 for 65c; 12 for \$1.20; 100 for \$8.50.

Poeticus Ornatus. Extremely lovely and very popular Daffodil with large symmetrical, pure white flowers and small yellow cup margined rosy scarlet. It is a late bloomer. 6 for 45c; 12 for 80c; 100 for \$5.50.

Robert Sydenham. A splendid exhibition variety with gigantic flowers. Perfectly formed, soft sulphur-yellow perianth surrounds the enormous, heavily frilled, sparkling golden yellow trumpet. The blooms are carried on long stems. 2 for 35c; 6 for \$1.00; 12 for \$1.85; 100 for \$14.00.

Sir Watkin. Large, bold, primrose-yellow flowers with well-formed rich golden yellow cup. A giant among the medium-trumpet sorts. A wonderful keeper. 2 for 25c; 6 for 60c; 12 for \$1.10; 100 for \$8.00.

DOUBLE-FLOWERING DAFFODILS

Daphne. Beautiful large double pure white, sweet-scented flowers. Best double white for the South. 2 for 30c; 6 for 85c; 12 for \$1.60; 100 for \$12.00.

Indian Chief. Large bright yellow blooms interspersed with orange. Very double with curled and twisted petals. 2 for 30c; 6 for 85c; 12 for \$1.60; 100 for \$12.00.

Twink. Well formed semi-double flowers. The petals are alternating soft primrose and clear orange, making a very striking appearance. Hardy, free-flowering and an excellent garden variety. 2 for 35c; 6 for 90c; 12 for \$1.65; 100 for \$12.50.

Van Sion. The true old "Dutch Daffodil." The double flowers are of a solid golden-yellow color. An old favorite. 2 for 25c; 6 for 60c; 12 for \$1.10; 100 for \$8.00.

↑ **King Alfred.** "The King of Yellow Daffodils." It is a strong grower with giant trumpet, magnificently frilled edges, and large perianth of an even rich golden yellow color. Truly an aristocrat among Narcissus and deserve a place in every garden. 2 for 30c; 6 for 80c; 12 for \$1.50; 100 for \$11.00.

JONQUILS

Old-fashioned, graceful, and deliciously scented flowers arranged in clusters on strong stems. Thrive best in a shady, moist location. Effectively used for naturalizing and for cutting.

Single Campernelle. (Giganteus). Pure golden yellow with exquisite, imbricated petals. 3 for 30c; 6 for 50c; 12 for 95c; 100 for \$7.00.

Double Campernelle. Large, bright yellow. 3 for 30c; 6 for 55c; 12 for \$1.00; 100 for \$7.25.

NARCISSUS in Mixture

Wonderful for naturalizing in woodlands, wild gardens, or rock-gardens. Our blend consists of all species of Narcissus—early as well as late bloomers. 6 for 35c; 12 for 65c; 100 for \$4.25; 500 for \$20.00.

Decorate Your Living Room

Easily Grown Indoors

Flower in 7 to 9 Weeks

Decorate your living-room during the winter months with these delightful flowers. They are easily grown in bowls in pebbles and water or in pots with peat moss.

When planting in bowls with pebbles and water drop a few pieces of charcoal into the bowl. It will help keep the water fresh. Do not set bulbs in water. Leave about ¼ inch between water level and root base.

Paper-White Grandiflora. Highly fragrant, pure white, star-shaped flowers are produced in large clusters, often as many as 25 individual blooms to each stalk. Also popular border flower. Large bulbs: 3 for 20c; 6 for 35c; 12 for 60c; 100 for \$4.00. Not prepaid: 1,000 for \$36.00.

Grand Soleil d'Or. "The Yellow Paper-White." Similar in growth and habit to the Paper-White, but blooms are of an attractive golden yellow with small orange cup. 2 for 25c; 6 for 65c; 12 for \$1.10; 100 for \$7.75. Not prepaid: 1,000 for \$72.50.

Chinese Sacred Lilies. "Flower of the Gods." Highly prized for its large clusters of silvery white, fragrant flowers with golden yellow cup. Beautiful forced indoors in bowls and showy massed in beds and borders. 2 for 25c; 6 for 65c; 12 for \$1.20; 100 for \$8.50.

Paper White Grandiflora

DARWIN TULIPS

Culture. In the extreme South, Tulips should not be planted until November or December, when the weather is more uniformly cool. Reuter's Bulbs are warehoused in cold storage to insure best results. Plant 5 to 6 inches deep and 6 inches apart.

Combine immense size with perfection of bloom. The beautifully outlined, deep, cup-shaped flowers, with petals of unusual heavy substance, are carried on stiff, erect stems, 2 or more feet high.

	3	6	12	100
Zwanenburg. Large glistening pure white	55c	\$1.00	\$1.85	\$14.00

OXALIS

Charming small plants of semi-trailing or bushy habit with clover-like foliage and single flowers. Fine for rock-gardens, borders and pot culture.

Bermuda Buttercup. Showy bright yellow.

Grand Duchess Pink. Large; deep pink.

Each: 6 for 30c; 12 for 50c; 100 for \$3.25.

SCILLAS

Dainty little plant for naturalizing or for planting in mixed borders. The flower spikes are covered with small, bell-shaped blooms in white, rose and blue colors. Prefer a sunny location and well drained soil.

White Blue Rose
Each: 3 for 20c; 6 for 35c; 12 for 65c; 100 for \$4.50.

ORNITHOGALUM

Aureum. This showy new variety comes to us from South Africa. The large cupped flowers are borne in massive clusters on stems about 15 inches tall. The color is a rich apricot-orange. Fine lasting cut flower. 3 for 35c; 6 for 65c; 12 for \$1.20; 100 for \$8.00.

Arabicum. (Star of Bethlehem). Very showy and extremely easy to grow. The large clusters of pure white flowers with black base are produced on tall stems. Make fine subjects for planting in mixed border or around informal pools. 3 for 20c; 6 for 35c; 12 for 65c; 100 for \$4.50.

RANUNCULUS

Very effective dwarf spring flower deserving more extensive use for planting in half shady borders and beds. The flowers are fully double and appear in many bright colors and combinations. Soak the roots in lukewarm water over night before planting. 6 for 30c; 12 for 55c; 100 for \$4.00.

LEUCOCORYNE

Ixioides. (Glory of the Sun.) Lovely new flowers producing 4-6 light blue, white centered blooms on wiry stems. Fine for mixed borders. 3 for 30c; 6 for 55c; 12 for \$1.00; 100 for \$7.00.

CALLA LILIES

Immensely popular and highly decorative pot-plants with large, showy, funnel-shaped flowers. In the extreme South they may be planted in open ground in a protected location.

Aethiopica. The largest and finest pure white Calla Lily. It is easily grown and will produce gigantic blooms if planted in good, rich soil. Prefer partly shaded location. Fine for planting in mixed borders. Each 30c; 6 for \$1.50; 12 for \$2.75; 100 for \$20.00.

Baby White Callas. Lovely miniature Calla with dainty small flowers produced freely throughout the season. Each 25c; 6 for \$1.35; 12 for \$2.50; 100 for \$18.50.

Golden Yellow. Extremely showy, with large, lustrous golden yellow flowers, contrasting beautifully with the dark green leaves profusely spotted silvery white. Each 30c; 6 for \$1.50; 12 for \$2.75; 100 for \$20.00.

Baby Gladiolus

Aethiopica Calla Lily

Darwin
Tulips
Clara Butt

WATSONIAS

Beautiful spring-flowering bulbs resembling the gladiolus but more graceful. Plant preferably during September and October, in partly shaded location, setting the bulbs 4 inches apart and about 3 inches deep. The flower-spikes furnish fine material for indoor decoration.

White Rose-Pink
Salmon-Pink Orange-Scarlet

Price: 3 for 35c; 6 for 60c; 12 for \$1.10.
Mixture. 3 for 30c; 6 for 55c; 12 for \$1.00;
100 for \$7.00.

BABY GLADIOLUS

Lovely miniature type of the Gladiolus family growing only about 1½ feet high and fine for planting in clumps in mixed borders or beds. Excellent for cut. We advise September, October planting as they are rather tender to cold. Bloom in about 2½ months.

Peach Blossom. Delicate pink; Spitfire. Brilliant reddish salmon; Florence rose pink.

All three: 3 for 25c; 6 for 45c; 12 for 80c; 100 for \$5.75.

All Insecticides can now be Mailed

Arsenate of Lead. Kills leaf-eating insects. Sticks to foliage. Quick action. Harmless to plants. Lb. 35c; 4 lbs. 90c, postpaid. Not prepaid: 100 lbs. \$15.00.

Black Leaf "40." A 40 percent Nicotine solution for destroying aphids, thrip, plant lice and sucking insects, also kills poultry-lice. 1 ounce makes 6 gallons spray. 1 oz. 36c; 5 oz. \$1.05; 1 lb. \$2.42; 2 lbs. \$3.57; 5 lbs. \$6.70; 10 lbs. \$11.65, postpaid. Not prepaid: 50 lbs. \$46.80.

Bordeaux Mixture. A standard dry powdered fungicide for many diseases of orchard and garden plants. Lb. 35c; 4 lbs. 90c, postpaid.

Calcium of Arsenate. A quality product. Contains a high percentage of arsenic. Very effective against potato bugs and cotton boll weevils. Postpaid: Lb. 35c; 4 lbs. 70c. Not prepaid: 100 lbs. \$9.50.

Copocil. A copper fungicide. Very effective against most fungus diseases. Extensively used for Azaleas as it not only controls the fungus but helps foliage retain their healthy dark green color. 4 lb. bag \$1.50, postpaid.

Dry Lime-Sulphur. For dormant spraying of fruit and shade trees and bushes against San Jose and oyster-shell scale, peach-leaf curl and brown rot of peaches. Postpaid: Lb. 45c; 5 lbs. \$1.75.

Not prepaid: 12 1/2 lbs. \$1.75; 100 lbs. (8 12 1/2-lb. bags) \$12.00.

Dogzoff. Protects your plants from dogs, cats, moles, mice, rabbits, etc. Not harmful to plant life. Simply spray on plants. No mixing. 3 oz. bottle 70c, postpaid.

Fish Oil Soap. Destroys lice and other sucking insects on plants, trees, ferns, etc. Excellent for mixing with Black Leaf "40." Lb. 40c, postpaid.

Garden Guard. An excellent non-poisonous garden insecticide for control of many sucking and chewing insects in the vegetable garden. Safe to use around children and pets. 1 lb. can 45c; 5 lb. bag \$1.25, postpaid.

Go-West Insect Bait. The Apple-bait that insects take. Combats and destroys Cutworms, Slugs, Sowbugs, Snails and Vegetable Weevils. Garden size (treats 400 sq. feet) 70c; Market size (treats 4,000 sq. feet) \$4.75, postpaid. Not prepaid: Half acre size \$15.00.

Grafting Wax. A specially prepared Wax to be used for pruning and grafting purposes. 1/4 lb. 45c; 1/2 lb. 60c; 1 lb. 85c, postpaid.

Grasselli Spreader. Mixed into most insecticides for better spreading and sticking. Pt. \$1.00; gallon \$6.00, postpaid.

Kopper Queen. A strong liquid copper-spray for control of mildew, leaf spot and black spot on rose bushes, flowers and many other kinds of foliage. 1/2 pt. 40c; pt. 65c; qt. \$1.00; gallon \$2.50, postpaid.

"Kryocide." Non-poisonous natural Cryolite. Highly effective in controlling many chewing insects. May be used as a spray or dust. Lb. Can 45c; 4 lb. bag \$1.00, postpaid.

"Kryocide" D-50. (With Sulphur). A ready-mixed dust to be used directly on plants. Controls chewing insects and fungus. Lb. can 60c; 3 lb. bag \$1.00, postpaid.

Nicotine Pyrox. A truly complete spray. Kills both chewing and sucking insects and controls plant diseases. Postpaid: 20 oz. 60c; 5 lbs. \$2.00. Not prepaid: 25 lbs. \$6.50; 50 lbs. \$10.65.

Pyrox. Kills all leaf-eating insects, prevents blight, and destroys fungus growth without injury to foliage. Mixes easily and sticks to foliage. Not prepaid: 25 lbs. \$5.75; 50 lbs. \$8.35.

Pomo-Green. (With Nicotine.) Dust or spray for external leaf-eating and sucking insects. Recommended highly for control of black-spot, mildew, and rust on roses, carnations, and snapdragons. Lb. 80c, postpaid.

Paradichlorobenzene. Kills Fig and Peach Tree Borers. Mix 1 lb. in 2 quarts of Cottonseed Oil and paint infested parts of the trees. 1 lb. 50c; 5 lbs. \$2.00, postpaid.

Pruning Paint. A specially prepared paint for treating wounds left by pruning or accidents on trees and shrubs. 1/2 pt. 40c; pt. 60c; qt. 95c; gallon \$2.85, postpaid.

Rose Spray (Acme). A complete spray for roses and flowers. Controls sucking and chewing insects, Black Spots, Mildew and other fungus diseases. No. 3 (makes 3 gallons) \$1.10; No. 6 (makes 6 gallons) \$1.75; No. 24 (makes 24 gallons) \$4.50, postpaid.

Tree Tanglefoot. Protects your trees from ants, worms and other insects. Also excellent for treating wounds and cavities on trees. 6 oz. box 55c; 1 lb. 95c; 5 lbs. \$4.00, postpaid.

Red Arrow. A concentrated Insecticide. Will efficiently control aphids, beetles, caterpillars, as well as other sucking and chewing insects on vegetables. Easy to use. Oz. 35c; 4 ozs. \$1.00; pt. \$2.85; qt. \$5.00; gal. \$17.00, postpaid.

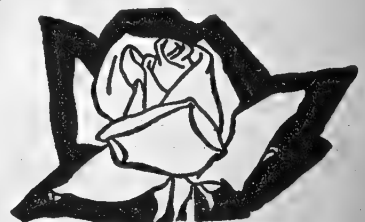

Sulphur. Excellent for dusting. Controls mildew and black spots on roses, as well as other fungus diseases. Also effective against red spiders and mites. Applied early in the morning or in the evening. 5 lbs. 50c; 10 lbs. 85c, postpaid. Not prepaid: 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4.00.

Wettable Dusting Sulphur. May be used as a dust or spray. Effective against red spiders and fungus diseases such as mildew, rust and black spots. 2 lb. can 35c; 6 lb. bags 70c, postpaid.

Tobacco Dust. Kills aphids and flea beetles. Extra-fine quality. Contains 1 per cent nicotine. 5 lbs. 50c; 10 lbs. 90c, postpaid. Not prepaid: 25 lbs. \$1.50; 50 lbs. \$2.00; 100 lbs. \$3.50.

Volck, Nursery and Garden Spray. A high quality oil spray. Controls red spiders, mealy bugs, scale insects and white fly. Does not discolor foliage. 4 oz. 35c; pt. 65c; 1/2 gal. \$1.50 postpaid. Not prepaid: 5 gal. \$8.50.

TRI-GEN
Patents Pending

Rose Garden Spray Treatment

The finest and most complete Spray for Roses. It kills many insects and controls black spots and mildew. Stimulates plant growth and tends to promote healthy foliage and luxuriant blooms. Small Kit \$1.60; Medium Kit \$4.20; Large Kit \$6.40, postpaid. Not prepaid Estate Kit \$20.00.

On all Sexed Pullet Chicks Reuter guarantees 90 per cent true-to-sex or refund one-half (½) the price you paid for any that are not sexed true in excess of 10%.

NOTICE Train services during the present emergency are overtaxed, and delays in chick deliveries can be expected. However, we will do everything in our power to expedite delivery of your chicks in shortest time possible. If you live on a spur rail line, bus or star route, or only have two or three weekly mail deliveries—specify Monday only as the shipping date when ordering chicks.

REUTER'S GUARANTEE

Reuter guarantees to deliver alive the full number of chicks ordered and true to name. When shipment is received, please count the number of live chicks immediately in the presence of the delivery agent. If less than ordered, have agent sign a statement verifying the number of live chicks received, and mail to us at once. Reuter will promptly replace with free chicks, or refund your money for such shortages. Of course, since the care of chicks after delivery is beyond our control, we cannot assume responsibility for losses caused by accident, neglect or improper care.

Reuter will notify you just when your chicks will be delivered.

Send for free booklet: "Helpful Hints on the Care of Baby Chicks!"

WHOLESALE VEGETABLE SEED PRICE LIST

for MARKET GARDENERS, TRUCKERS and COMMERCIAL GROWERS & SHIPPERS

NOTICE —
The purchaser must pay transportation charges when seeds are ordered at these prices. If interested in larger quantities than quoted, send us your entire list for rock-bottom delivered prices.

PARCEL POST RATES

If shipped by Parcel Post, be sure to add the amount for postage and include it in your remittance. The map below will tell you your Parcel Post Zone. Pick out the location of your town and figure the amount of postage from the following chart:

	Miles	First pound costs	All additional pounds
Zone 1.....	150	9c	1c
Zone 2.....	150	9c	1c
Zone 3.....	300	10c	2c
Zone 4.....	600	11c	3½c
Zone 5.....	1000	12c	5½c

For example, a 10-pound package to Zone 3 costs 10c for the first pound and 2c a pound for the next 9 lbs. or 18c—total 28c, or less than 3c a pound.

Parcel Post packages are mailed anywhere within the United States and its possessions, weighing up to and including 70 pounds.

DELIVERIES BY FREIGHT

In these times of war it becomes the principal duty of the Railroads to see that all men and material essential to our war effort move and move without delay. As a result there is apt to be some delays in commercial freight shipments. Place your order early and be assured to have your seeds on hand when needed.

Truck Service. New Orleans enjoys splendid truck service in all directions. To many points shipments by truck are more convenient and will move faster than freight. Rates are about the same.

EXPRESS for RUSH SHIPMENTS

If at any time you require rapid service and want your seeds at once, specify Express. Many special low Express rates apply to many points. Ask your Express Agent how much it will cost. He will gladly tell you.

When ordering in quantities not listed above, we will allow the 5-lb. rate on quantities from 3 to 5 lbs. We will allow the 10-lb. rate on quantities of 6 to 10 lbs. inclusive. All quantities of 25-lbs. or more take the 100-lb. rate. ½-bushel quantities will be supplied at the bushel rates.

Singletary Peas

THE WONDER CROP

FOR THE SOUTH

808 This Wild Winter Pea was discovered in Louisiana by Professor B. H. Singletary of the College of Agriculture, Louisiana State University. It is a valuable soil improving winter legume for Southern farmers and furnishes plenty of green matter for turning under. Singletary Peas save you money as they will reseed themselves, thereby eliminating the necessity of replanting every year. Will furnish excellent supplemental grazing when planted in combination with a small grain crop such as Oats. Do not overgraze if you want fields reseeded. Grazing after seed pods mature

will cause serious upset in digestion of cattle and horses. A seed crop of Singletary Peas is easily saved and will average 1,000 lbs. to the acre in good land under favorable weather conditions with enough seed scattered to insure a stand the following winter. If planted alone 40 lbs. of seed is needed per acre, in Oats 20 to 30 lbs. will be sufficient. Plant preferably in drills 1 to 2 inches deep depending on soil types. Soil should be well drained. In land deficient in Phosphate apply at the rate of 200 lbs. to the acre. Singletary Peas should be inoculated with Nitragin "C." Neglect to do so may cause crop failure.

Prices: Lb. 30c;
5 lbs. \$1.00. Not
prepaid: 10 lbs.

lbs. \$230.00.

Austrian Winter Peas

\$7.25
PER
100
LBS

809 The most important problem of any farmer is to obtain the largest possible net return from his farm operations. Greater net returns may be obtained by increasing your crop yields at the **lowest** cost. Austrian Winter Peas solves this problem for you. It's the leading soil-builder and winter cover crop for the South because of its large, heavy growth on practically all soils and its ability to resist winter freezes. Makes a splendid temporary pasture during late winter. It grows about 5 feet high, can be planted by itself, but does fine with a light seeding of oats, rye or barley to hold vines off ground; makes a heavy tonnage of splendid hay. Protects your soil, holds and increases its fertility, furnishes grazing for your livestock, or makes valuable green manure, decaying rapidly when plowed under.

Sow Austrian Winter Peas during September through November, in drills, at the rate of 30 lbs. per acre and cover 2 inches. Also sown broadcast and disked in. Broadcasting in cotton middles and straddling the rows with a two-horse cultivator with the disk hillers or plows is a very good method of covering. Turn under during late March or early April when the green tops cut from a square 10 by 10 feet will weigh 15 to 20 lbs. (green weight). Wait two weeks before planting the succeeding crop. Inoculate seed with NITRAGIN. **Prices:** Not prepaid: 10 lbs. 95c; 100 lbs. \$7.25. Write Reuter for current market prices on larger quantities when ready to buy.
